# DIRECTORS' REPORT (CONTINUED)

## SIGNIFICANT EVENTS

On 24 August 2018, the Board of Directors ("BOD") of the Company has approved the application to the Securities Commission of Malaysia ("SC") for the Proposed initial public offering ("Proposed IPO") of the Company in conjunction with the listing of and quotation for the entire issued shares and new shares to be issued in the Company on the Main Market of Bursa Malaysia Securities Berhad ("Proposed Listing").

On 6 December 2018 and 9 April 2019, the SC has conditionally approved the Company's Proposed Listing on the Main Market of Bursa Malaysia Securities Berhad ("Listing"), subject to the fulfilment of certain terms and conditions.

On 23 April 2019, upon fulfilment of the terms and conditions set out by the SC, the Initial Public Offering ("IPO") prospectus of the Company was registered with the SC under the Capital Markets and Services Act 2007. On 24 April 2019, the registered IPO prospectus of the Company was lodged with the Companies Commission of Malaysia. The Company launched its IPO prospectus to the public on 25 April 2019. The details of IPO is disclosed in note 45(d) of the notes to the financial statements.

#### FINANCIAL RESULTS

	<u>Group</u> RM'000	Company RM'000
Net profit for the financial year	246,753	54,232 ————
Profit attributable to: Owners of the Company Non-controlling interests	186,185 60,568	54,232
	246,753	54,232

#### RESERVES AND PROVISIONS

All material transfers to or from reserves and provisions during the financial year are shown in the financial statements.

# ISSUE OF SHARES AND DEBENTURES

There were no changes in the issued and paid-up capital of the Company during the financial year.

There were no debentures issued during the financial year.

As disclosed in note 26 and note 45 of the notes to the financial statements, subsequent to the financial year end, the number of shares issued and paid up has been increased from 955,370 shares to 1,230,131,992 shares following a bonus issue and share split exercise approved at an Extraordinary General Meeting ("EGM") held on 11 January 2019.

# DIRECTORS' REPORT (CONTINUED)

# **DIRECTORS' BENEFITS**

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than as disclosed in the notes to the financial statements and the ESOS disclosed in note 45) by reason of a contract made by the Company or by a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

Neither during nor at the end of the financial year was the Company or any of its subsidiaries a party to any arrangements whose object was to enable the Directors to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

## **DIRECTORS' INTERESTS IN SHARES AND DEBENTURES**

According to the Register of Directors' Shareholdings required to be kept under Section 59 of the Companies Act 2016, none of the Directors who held office at the end of the financial year held any shares or debentures in the Company or its subsidiaries or its holding company or subsidiaries of the holding company during the financial year except as follows:

#### **DIVIDENDS**

The dividends declared or paid by the Company since the end of the previous financial year was as follows:

RM'000

In respect of financial year ended 31 December 2017: Final single tier dividend of RM60.73 per ordinary share on 955,370 ordinary shares, declared on 24 August 2018

58,000

# **DIRECTORS' REMUNERATION**

Details of Directors' remuneration are set out in Note 37 to the financial statements. No indemnity was given to any Directors or Officers of the Group during the financial year.

## **ULTIMATE HOLDING COMPANY**

The Directors regard Emerging Glory Sdn. Bhd., a company incorporated in Malaysia, as the ultimate holding company.

# SHARE OPTIONS

No options have been granted by the Company to any parties during the financial year to take up unissued shares of the Company.

Subsequent to the financial year end, the Company proposes to establish the Employee Share Option Scheme ("ESOS") for the eligible Directors and employees of the Group as set out in the By-Laws governing the ESOS. The Options shall be granted to eligible Directors and employees of the Group and shall have key features as disclosed in note 45(b) of the notes to the financial statements. The ESOS shall be administered by the ESOS committee appointed by the Board of Directors of the Company and governed by the By-Laws.

# DIRECTORS' REPORT (CONTINUED)

## OTHER STATUTORY INFORMATION

- (a) Before the financial statements of the Group and of the Company were prepared, the Directors took reasonable steps:
  - (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and
  - (ii) to ensure that any current assets, which were unlikely to be realised in the ordinary course of business including the values of current assets as shown in the accounting records of the Group and of the Company had been written down to an amount which the current assets might be expected so to realise.
- (b) At the date of this report, the Directors are not aware of any circumstances:
  - (i) which would render the amounts written off for bad debts or the amount of the provision for doubtful debts inadequate to any substantial extent; or
  - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
  - (iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (c) At the date of this report:
  - (i) there are no charges on the assets of the Group and of the Company which have arisen since the end of the financial year which secures the liabilities of any other person; and
  - (ii) there are no contingent liabilities in the Group and in the Company which have arisen since the end of the financial year.
- (d) No contingent or other liability of any company in the Group has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Company and its subsidiaries to meet their obligations when they fall due.
- (e) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the respective financial statements misleading.

(Incorporated in Malaysia)

# DIRECTORS' REPORT (CONTINUED)

# OTHER STATUTORY INFORMATION (CONTINUED)

- (f) In the opinion of the Directors:
  - (i) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
  - (ii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

# **SUBSIDIARIES**

David Morella Jorba

Details of subsidiaries are set out in Note 14 to the financial statements.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (Incorporated in Malaysia) (Company No. 1098663 D)

#### REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

# Our opinion

In our opinion, the financial statements of Leong Hup International Berhad ("the Company") and its subsidiaries ("the Group") give a true and fair view of the financial position of the Group and of the Company as at 31 December 2018, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

# What we have audited

We have audited the financial statements of the Group and of the Company, which comprise the statements of financial position as at 31 December 2018 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 14 to 145.

# Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

# Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED) (Incorporated in Malaysia) (Company No. 1098663 D)

# REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

# Information other than the financial statements and auditors' report thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of the Directors for the financial statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

# Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED) (Incorporated in Malaysia) (Company No. 1098663 D)

# REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Auditors' responsibilities for the audit of the financial statements (continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia) (Company No. 1098663 D)

## REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Auditors' responsibilities for the audit of the financial statements (continued)

(f) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 14 to the financial statements.

## OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018

## 1 GENERAL INFORMATION

On 17 August 2018, the Company was converted to a public limited liability company and assumed the name of Leong Hup International Berhad. The Company was incorporated and domiciled in Malaysia. The address of the principal place of business and registered office is as follows:

# Principal place of business

3rd Floor, Wisma Westcourt, No. 126, Jalan Kelang Lama, 58000 Kuala Lumpur, Malaysia.

#### Registered office

Unit 30-01, Level 30, Tower A, Vertical Business Suite Avenue 3, Bangsar South No.8, Jalan Kerinchi 59200 Kuala Lumpur Wilayah Persekutuan Kuala Lumpur.

The Directors regard Emerging Glory Sdn. Bhd., a company incorporated in Malaysia, as the ultimate holding company.

The principal activity of the Company is investment holding. The principal activities of the Group are the production and distribution of breeder and broiler day-old-chick, broiler chickens, eggs, animal feeds, animal health products and consumer food products. The principal activities of its subsidiaries are disclosed in Note 14 to the financial statements. There have been no significant changes in the nature of these activities during the financial year.

# 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# 2.1 Basis of preparation

The financial statements of the Group and Company have been prepared in accordance with Malaysian Financial Reporting Standards ('MFRS'), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared under the historical cost convention except as disclosed in the summary of accounting policies below.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors to exercise their judgement in the process of applying the Group and Company's accounting policies. Although these estimates and judgement are based on the Directors' best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

Company N	o.
1098663	D

(Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.2 Standards, amendments to published standards and interpretations that are effective

The Group has applied the following standards and amendments for the first time for the financial period beginning on 1 January 2018:

- Amendments to MFRS 140 'Classification on 'Change in Use' Assets transferred to, or from, Investment Properties'.
- IC Interpretation 22 'Foreign Currency Transactions and Advance Consideration'.

The adoption of these amendments did not have any impact on the current period or any prior periods and is not likely to affect future periods.

# 2.3 Standards early adopted by the Group

The Group has adopted MFRS for the first time in the financial year beginning 1 January 2017 with a date of transition on 1 January 2015. Accordingly, the Group has consistently applied the same accounting policies in its opening MFRS statements of financial position as at 1 January 2015 and throughout the reported periods since then. The Group has also elected to early adopt the following standards in financial year beginning 1 January 2017 with date of transition on 1 January 2015 and applied these consistently throughout the reported periods since then.

- MFRS 9 'Financial Instruments' which replaces MFRS 139 'Financial Instruments: Recognition and Measurement'.
- MFRS 15 'Revenue from contracts with customers' which replaces MFRS 118 'Revenue' and MFRS 111 'Construction contracts' and related interpretations.
- 2.4 Standards and amendments that have been issued but not yet effective

A number of new standards and amendments to standards and interpretations are effective for financial year beginning after 1 January 2019.

 MFRS 16 'Leases' (effective from 1 January 2019) supersedes MFRS 117 'Leases' and the related interpretations.

Under MFRS 16, a lease is a contract (or part of a contract) that conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

MFRS 16 eliminates the classification of leases by the lessee as either finance leases (on balance sheet) or operating leases (off balance sheet). MFRS 16 requires a lessee to recognise a "right-of-use" of the underlying asset and a lease liability reflecting future lease payments for most leases.

For lessors, MFRS 16 retains most of the requirements in MFRS 117. Lessors continue to classify all leases as either operating leases or finance leases and account for them differently.

(Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.4 Standards and amendments that have been issued but not yet effective (continued)
  - MFRS 16 'Leases' (effective from 1 January 2019) supersedes MFRS 117 'Leases' and the related interpretations. (continued)

The Group will apply the new standards from its mandatory adoption date of 1 January 2019, being the date of initial application ("DIA"). The Group intends to apply the simplified retrospective approach. Under this approach, the Group is not required to restate the comparatives and the MFRS 16 adjustments will be reflected in the opening retained earnings at DIA. At DIA, the Group will recognise and measure the lease liability at the present value of the remaining lease payments, discounted at the Group's incremental borrowing rate at DIA. The Group will recognise and measure the right-to-use asset, on a lease-by-lease basis, at an amount equal to the lease liability, adjusted by the amount of any prepaid or accrued lease payments relating to that lease recognised immediately before DIA.

The right-of-use asset is depreciated in accordance with the principle in MFRS 116 'Property, Plant and Equipment' and the lease liability is accreted over time using the effective interest method with interest expense recognised in the profit or loss.

The estimated financial effect to the Group on the adoption of MFRS 16 at DIA are as follows:

- As at the reporting date, the Group has non-cancellable operating lease commitments of RM126 million, see Note 39. Of these commitments, the Group expects to recognise right-of-use assets of approximately RM 91 million and lease liabilities of approximately RM 91 million, relating to leases other than short-term leases and leases of low-value on DIA
- Everything else held constant, the rental expense is expected to decrease by approximately RM14 million while the amortisation of right-of use asset and interest expense are expected to increase by approximately RM16 million, the net difference of approximately RM2 million for the FYE 31 December 2019 will not have material impact on the basic and diluted earnings per share of the Group;
- Everything else held constant, EBITDA of the Group is expected to improve by approximately RM14 million as the rental expense was charged against EBITDA line under MFRS 117, while the amortisation charge and interest expense will be excluded from the EBITDA line under MFRS 16.
- IC Interpretation 23 'Uncertainty over Income Tax Treatments' (effective 1 January 2019) provides guidance on how to recognise and measure deferred and current income tax assets and liabilities where there is uncertainty over a tax treatment.

If an entity concludes that it is not probable that the tax treatment will be accepted by the tax authority, the effect of the tax uncertainty should be included in the period when such determination is made. An entity shall measure the effect of uncertainty using the method which best predicts the resolution of the uncertainty.

IC Interpretation 23 will be applied retrospectively.

Company N	0
1098663	D

(Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.4 Standards and amendments that have been issued but not yet effective (continued)
  - Amendments to MFRS 128 'Long-term Interests in Associates and Joint Ventures' (effective from 1 January 2019) clarify that an entity should apply MFRS 9 'Financial Instruments' (including the impairment requirements) to long-term interests in an associate or joint venture, which are in substance form part of the entity's net investment, for which settlement is neither planned nor likely to occur in the foreseeable future.

In addition, such long-term interest are subject to loss allocation and impairment requirements in MFRS 128.

The amendments shall be applied retrospectively.

• Amendments to MFRS 9 'Prepayment features with negative compensation' (effective 1 January 2019) allow companies to measure some prepayable financial assets with negative compensation at amortised cost. Negative compensation arises where the contractual terms permit the borrower to prepay the instrument before its contractual maturity, but the prepayment amount could be less than the unpaid amounts of principal and interest. To qualify for amortised cost measurement, the negative compensation must be reasonable compensation for early termination of the contract, and the asset must be held within a 'held to collect' business model.

The amendments will be applied retrospectively.

- Annual Improvements to MFRSs 2015 2017 Cycle:
  - Amendments to MFRS 3 'Business Combinations' (effective from 1 January 2019) clarify
    that when a party obtains control of a business that is a joint operation, the acquirer
    should account the transaction as a business combination achieved in stages.
    Accordingly it should remeasure its previously held interest in the joint operation (rights
    to the assets and obligations for the liabilities) at fair value on the acquisition date.
  - Amendments to MFRS 11 'Joint Arrangements' (effective from 1 January 2019) clarify that when a party obtains joint control of a business that is a joint operation, the party should not re-measure its previously held interest in the joint operation.
  - Amendments to MFRS 112 'Income Taxes' (effective from 1 January 2019) clarify that where income tax consequences of dividends on financial instruments classified as equity is recognised (either in profit or loss, other comprehensive income or equity) depends on where the past transactions that generated distributable profits were recognised. Accordingly, the tax consequences are recognised in profit or loss when an entity determines payments on such instruments are distribution of profits (that is, dividends). Tax on dividend should not be recognised in equity merely on the basis that it is related to a distribution to owners.
  - Amendments to MFRS 123 'Borrowing Costs' (effective from 1 January 2019) clarify that
    if a specific borrowing remains outstanding after the related qualifying asset is ready for
    its intended use or sale, it becomes part of general borrowings.

# LEONG HUP INTERNATIONAL BERHAD (Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.4 Standards and amendments that have been issued but not yet effective (continued)
  - Amendments to MFRS 119 'Plan amendment, curtailment or settlement' (effective 1 January 2019) requires an entity to use the updated actuarial assumptions from remeasurement of its net defined benefit liability or asset arising from plan amendment, curtailment or settlement, to determine current service cost and net interest for the remaining period after the change to the plan. The amendments will be applied prospectively.
  - Amendments to MFRS 3 'Definition of a Business' (effective 1 January 2020) revise the
    definition of a business. To be considered a business, an acquisition would have to include an
    input and a substantive process that together significantly contribute to the ability to create
    outputs.

The amendments provide guidance to determine whether an input and a substantive process are present, including situation where an acquisition does not have outputs. To be a business without outputs, there will now need to be an organised workforce. It is also no longer necessary to assess whether market participants are capable of replacing missing elements or integrating the acquired activities and assets.

In addition, the revised definition of the term 'outputs' is narrower, focusses on goods or services provided to customers, generating investment returns and other income but excludes returns in the form of cost savings.

The amendments introduce an optional simplified assessment known as 'concentration test' that, if met, eliminates the need for further assessment. Under this concentration test, if substantially all of the fair value of gross assets acquired is concentrated in a single identifiable asset (or a group of similar assets), the assets acquired would not represent a business.

The amendments shall be applied prospectively.

The adoption of these new accounting standards or amendments to standards and interpretations do not have material effect on the financial statements for the current financial year or any prior periods.

# LEONG HUP INTERNATIONAL BERHAD (Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

# 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2.5 Basis of consolidation

The principal accounting policies applied in the preparation of the consolidated financial statements are set out below:

# (a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

# Business combinations under acquisition method

For business combinations accounted under acquisition method, the consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquire and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement and fair value of any pre-existing equity interest in the subsidiary. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recognised as goodwill. If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the profit or loss (Note 2.6).

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date, any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with MFRS 9 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.5 Basis of consolidation (continued)
  - (a) Subsidiaries (continued)

# Business combination under common control

The Group applies predecessor accounting to account for business combinations under common control. Under predecessor accounting, assets and liabilities acquired are not restated to their respective fair values. They are recognised at the carrying amounts from the consolidated financial statements of the ultimate holding company of the Group and adjusted to conform with the accounting policies adopted by the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities of the acquired entity is recognised as an adjustment to merger reserve. No additional goodwill is recognised.

The acquired entity's results, assets and liabilities are consolidated as if both the acquirer and acquiree had always been combined. Consequently, the consolidated financial statements reflect both entities' full year's results. The comparative information is restated to reflect the combined results of both entities.

# Transactions between Group companies

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those adopted by the Group.

# Non-controlling interests

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of financial position respectively.

Transactions with non-controlling interests that do not result in loss of control are accounted for as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in equity attributable to owners of the Group.

(Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.5 Basis of consolidation (continued)
  - (a) Subsidiaries (continued)

## Loss of control

When the Group ceases to consolidate a subsidiary because of a loss of control, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

Gains or losses on the disposal of subsidiaries include the carrying amount of goodwill relating to the subsidiaries sold.

# (b) Associates

Associates are all entities over which the Group has significant influence but not control or joint control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting. Under the equity method, the investment in an associate is initially recognised at cost, and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the associate in profit or loss, and the Group's share of movements in other comprehensive income of the associate in other comprehensive income. Dividends received or receivable from an associate are recognised as a reduction in the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interests in the associate, including any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group does not recognise further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate. The Group's investment in associates includes goodwill identified on acquisition.

The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. An impairment loss is recognised for the amount by which the carrying amount of the associate exceeds its recoverable amount. The Group presents the impairment loss adjacent to 'share of profit/(loss) of an associate' in the statement of comprehensive income.

Profits and losses resulting from upstream and downstream transactions between the Group and its associate are recognised in the Group's financial statements only to the extent of unrelated investor's interests in the associates. Unrealised losses are eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been changed where necessary to ensure consistency with the policies adopted by the Group.

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

- 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)
- 2.5 Basis of consolidation (continued)
  - (b) Associates (continued)

When the Group ceases to equity account its associate because of a loss of significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequently accounting for the retained interest as a financial asset. In addition, any amount previously recognised in other comprehensive income in respect of the entity is accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income is reclassified to profit or loss where appropriate.

Dilution gains and losses arising in investments in associates are recognised in the income statement.

(c) Investments in subsidiaries and associates in separate financial statements

In the Company's separate financial statements, investments in subsidiaries and associates are carried at cost less accumulated impairment losses. On disposal of investments in subsidiaries and associates, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

The amounts due from subsidiaries of which the Company does not expect repayment in the foreseeable future are considered as part of the Company's investments in the subsidiaries.

Company N	o.
1098663	D

(Incorporated in Malaysia)

# NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

# 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

#### 2.6 Goodwill

Goodwill represents the excess of the aggregate of the consideration transferred, the amount of any non-controlling interest and the fair value of any previously held equity interest in the acquiree at the acquisition date over the fair value of the net identifiable assets acquired and liabilities assumed. If the total consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired, the difference is recognised directly in profit or loss.

Goodwill on acquisition of subsidiaries is included in the statement of financial position as intangible assets. Goodwill is tested annually for impairment or more frequently if events or changes in circumstances indicate a potential impairment and carried at cost less accumulated impairment. Impairment of goodwill is not reversed. Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or groups of cash-generating units that are expected to benefit from the synergies of the business combination in which the goodwill arose. The Group allocates goodwill to each business segment in each country in which it operates. See accounting policy Note 2.10 on impairment of non-financial assets.

Goodwill on acquisitions of associates is included in investments in associates. Such goodwill is tested for impairment as part of the total carrying value.

# 2.7 Investments

Short term investments in marketable securities are classified as financial assets at fair value through profit or loss and measured at fair value on the date a transaction is entered into and are subsequently re-measured at fair value with changes in fair value recognised in profit or loss. Market value is calculated by reference to stock exchange quoted selling prices at the close of business on the statement of financial position date. On disposal of an investment, the difference between net disposal proceeds and its fair value is recognised in profit or loss.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.8 Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. The cost of an item of property, plant and equipment initially recognised includes its purchase price, import duties, non-refundable purchase taxes and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Cost also includes borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (refer to accounting policy Note 2.20 on borrowing costs).

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as expenses in profit or loss during the period in which they are incurred.

Gains or losses on disposals are determined by comparing proceeds with carrying amount and are included in profit or loss.

Freehold land is not depreciated as it has an infinite life. Leasehold land classified as finance lease (refer to accounting policy Note 2.14(a) on finance leases) is amortised in equal instalments over the period of the respective leases. Other property, plant and equipment are depreciated on the straight-line method to allocate the cost, to their residual values over their estimated useful lives, summarised as follows:

Leasehold land	47 to 98 years
Buildings	2% - 12.5%
Land improvement	2% - 5%
Plant and machinery	5% - 20%
Motor vehicles, furniture, fittings, equipment and renovation	5% - 50%

Depreciation on assets under construction commences when the assets are ready for their intended use.

Residual values and useful lives of assets are reviewed, and adjusted if appropriate, at the end of each reporting period.

At the end of the reporting period, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount. (see accounting policy Note 2.10 on impairment of non-financial assets).

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.7 Investment properties

Investment properties, comprising principally land and buildings, are held for long term rental yields or for capital appreciation or both, and are not occupied by the Group.

Investment property is measured initially at its cost, including professional fees for legal services, property transfer taxes, other transaction costs and borrowing costs if the investment property meets the definition of a qualifying asset.

After initial recognition, investment property is stated at cost less any accumulated depreciation and impairment losses. Investment property is depreciated on the straight-line basis to allocate the cost to their residual values over their estimated useful lives of 8 to 50 years.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment property is derecognised either when it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are included in profit or loss.

If an item of owner-occupied property becomes an investment property because its use has changed, the carrying amount of the property does not change.

### 2.10 Impairment of non-financial assets

Assets that have an indefinite useful life, for example goodwill or intangible assets not ready to use, are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to profit or loss unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in profit or loss unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus reserve.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.11 Financial assets

### (a) Classification

The Group classifies its financial assets in the following measurement categories:

- · Fair value through profit or loss (FVPL); or
- · Amortised cost; or
- Fair value through other comprehensive income (FVOCI)

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

(i) Fair value through profit or loss (FVPL)

A financial asset shall be measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income. However an entity may make an irrevocable election at initial recognition for particular investments in equity instruments that would otherwise be measured at fair value through profit or loss to present subsequent changes in fair value in other comprehensive income.

(ii) Classification of financial assets at amortised cost

The Group classifies its financial assets as at amortised cost only if both of the following criteria are met:

- The asset is held within a business model with the objective of collecting the contractual cash flows, and
- The contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal outstanding.

The company reclassifies debt investments when and only when its business model for managing those assets changes.

(iii) Fair value through other comprehensive income (FVOCI)

Financial assets at fair value through other comprehensive income comprise:

- Equity securities which are not held for trading, and for which the company has
  made an irrevocable election at initial recognition to recognise changes in fair
  value through OCI rather than profit or loss, and
- Debt securities where the contractual cash flows are solely principal and interest and the objective of the company's business model is achieved both by collecting contractual cash flows and selling financial assets.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.11 Financial assets (continued)

### (b) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

### Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those
  cash flows represent solely payments of principal and interest are measured at
  amortised cost. A gain or loss on a debt investment that is subsequently measured at
  amortised cost and is not part of a hedging relationship is recognised in profit or loss
  when the asset is derecognised or impaired. Interest income from these financial assets
  is included in finance income using the effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the profit or loss statement within other gains/(losses) in the period in which it arises. Interest income from these financial assets is included in the finance income.
- Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/(losses). Interest income from these financial assets is included in finance income using the effective interest rate method.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.11 Financial assets (continued)

### (b) Measurement (continued)

### Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Company's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss. Dividends from such investments continue to be recognised in profit or loss as other income when the Company's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income/(expenses) in the statement of comprehensive income as applicable. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

### (c) Impairment

The Group assesses on a forward looking basis the expected credit losses ("ECL") associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. Note 41 details how the Group determines whether there has been a significant increase in credit risk.

The Group applies an expected credit loss ('ECL') impairment model on financial assets carried at amortised cost.

For trade receivables that do not contain significant financing components, the Group applies the MFRS 9 simplified approach which is to measure the loss allowance at an amount equal to lifetime ECL at initial recognition and throughout its life. For other receivables and amounts due from ultimate holding company, fellow subsidiaries and subsidiaries, the Group applies ECL impairment model based on changes in credit quality since initial recognition.

### (d) Derecognition

Financial assets are de-recognised when the rights to receive cash flows from the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.12 Financial liabilities

Financial instruments are classified as liabilities or equity in accordance with the substance of the contractual arrangement. A financial liability is classified into the following category after initial recognition for the purpose of subsequent measurement:

### (i) Other financial liabilities

Financial liabilities classified as other financial liabilities comprise non-derivative financial liabilities that are neither held for trading nor initially designated as at fair value through profit or loss.

Subsequent to initial recognition, other financial liabilities are measured at amortised cost using the effective interest method. Gains or losses on other financial liabilities are recognised in statements of comprehensive income when the financial liabilities are derecognised and through the amortisation process.

A financial liability is derecognised when, and only when, it is extinguished, i.e. when the obligation specified in the contract is discharged or cancelled or expires. An exchange between an existing borrower and lender of debt instruments with substantially different terms are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. Similarly, a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability.

Any difference between the carrying amount of a financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in statements of comprehensive income.

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantee contracts are recognised as a financial liability at the time the guarantee is issued. The liability is initially measured at fair value and subsequently at the higher of the amount determined in accordance with MFRS 137 "Provisions, contingent liabilities and contingent assets" and the amount initially recognised less cumulative amortisation, where appropriate.

The fair value of financial guarantees is determined as the present value of the difference in net cash flows between the contractual payments under the debt instrument and the payments that would be required without the guarantee, or the estimated amount that would be payable to a third party for assuming the obligations.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.13 Offsetting financial instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

### 2.14 Leases

A lease is an agreement whereby the lessor conveys to the lessee in return for a payment, or series of payments, the right to use an asset for an agreed period of time.

### (a) Accounting by lessee

### (i) Finance leases

Leases of property, plant and equipment where the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in other short-term and long-term payables.

Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate of interest on the remaining balance of the liability. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases is depreciated over the shorter of the useful life of the asset and the lease term if there is no reasonable certainty that the Group will obtain ownership at the end of the lease term.

Initial direct costs incurred by the Group in negotiating and arranging finance leases are added to the carrying amount of the leased assets and recognised as an expense in profit or loss over the lease term on the same basis as the lease expense.

### (ii) Operating leases

Leases of assets where a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on the straight-line basis over the lease period.

Company No.		
1098663	D	

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.14 Leases (continued)

### (b) Accounting by lessor

### (i) Finance leases

When assets are leased out under a finance lease, the present value of the lease payments is recognised as a receivable. The difference between the gross receivable and the present value of the receivable is recognised as unearned finance income.

Lease income is recognised over the term of the lease using the net investment method so as to reflect a constant periodic rate of return.

### (ii) Operating leases

When assets are leased out under an operating lease, the asset is included in the statement of financial position based on the nature of the asset. Lease income is recognised over the term of the lease on a straight-line basis.

### 2.15 Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. Other receivables generally arise from transactions outside the usual operating activities of the Group. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, where they are recognised at fair value plus transaction costs. Other receivables are recognised initially at fair value plus transaction costs. Transaction costs include transfer taxes and duties.

After recognition, trade and other receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. See accounting policy Note 2.11(c) on impairment of financial assets.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.16 Inventories

Inventories are stated at the lower of cost and net realisable value. Cost is determined using the first in, first out method. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs, including import duties and other taxes and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. It excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and the estimated costs necessary to make the sale.

### 2.17 Cash and cash equivalents

For the purpose of the statements of cash flows, cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. Cash and cash equivalents comprise cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts, less restricted cash. Restricted cash includes restricted deposits held as compensating balances against credit facilities arrangements.

Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents in the statement of cash flows. In the statement of financial position, banks overdrafts are shown within borrowings in current liabilities.

### 2.18 Share capital

(a) Classification

Ordinary shares are classified as equity.

(b) Share issue costs

Incremental costs directly attributable to the issue of new shares are deducted against equity.

(c) Dividend distribution

Liability is recognised for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Group, on or before the end of the reporting period but not yet distributed at the end of the reporting period.

Distributions to holders of an equity instrument is recognised directly in equity.

### 2.18 Share capital (continued)

### (d) Earnings per share

### Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year and excluding treasury shares.

### Diluted earnings per share

Diluted earnings per share adjusts the figures in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

### 2.19 Trade payables

Trade payables represent liabilities for goods or services provided to the Group prior to the end of financial year which are unpaid. Trade payables are classified as current liabilities unless payment is not due within 12 months after the reporting period. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value net of transaction costs incurred, which include transfer taxes and duties.

Trade payables are subsequently measured at amortised cost using the effective interest method.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.20 Borrowings and borrowing costs

### (i) Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between initial recognised amount and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The dividends on these preference shares are recognised as finance cost in profit or loss.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Where the terms of a financial liability are renegotiated and the Company issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

### (ii) Borrowing costs

General and specific borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.21 Current and deferred income tax

Tax expense for the period comprises current and deferred income tax. The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity, In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries, joint ventures and associates operate and generate taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. This liability is measured using the single best estimate of the most likely outcome.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets including tax benefit from investment tax credit, including reinvestment allowance are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses or unused tax credits can be utilised.

Deferred tax liability is recognised for all taxable temporary differences associated with investments in subsidiaries, associates, except where the timing of the reversal of the temporary difference is controlled by the parent, investor and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the investor is unable to control the reversal of the temporary difference for associates. Only where there is an agreement in place that gives the investor the ability to control the reversal of the temporary difference, a deferred tax liability is not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the deductible temporary difference can be utilised.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.22 Employee benefits

### (a) Short term employee benefits

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as other payables in the statement of financial position.

### (b) Post-employment pension benefits

The Group has various post-employment pension benefit schemes in accordance with local conditions and practices in the countries in which it operates. These benefits plans are either defined contribution or defined benefit plans.

A defined contribution plan is a pension plan under which the Group pays fixed contributions into a separate entity (a fund) on a mandatory, contractual or voluntary basis and the Group has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior periods.

Defined benefit plan is a pension plan that is not a defined contribution plan. Defined benefit plans define an amount of pension benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and compensation.

### (i) Defined contribution plans

The Group's contributions to defined contribution plans are charged to profit or loss in the period to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

### (ii) Defined benefit plans

The liability or asset recognised in the statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation. In countries where there is no deep market in such bonds, the market rates on government bonds are used.

The current service cost of the defined benefit plan reflects the increase in the defined benefit obligation resulting from employee service in the current year. It is recognised in the profit or loss in employee benefit expense, except where included in the cost of an asset.

Company No.	
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.22 Employee benefits (continued)

- (b) Post-employment pension benefits (continued)
  - (ii) Defined benefit plans (continued)

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised directly in other comprehensive income in the period in which they arise.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the income statement.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service costs.

### 2.23 Share-based payments - Employee options

The Group operates an equity-settled, share-based compensation plan under which the entity receives services from employees as consideration for equity instruments (options) of the Group. The fair value of the options granted in exchange for the services of the employees are recognised as employee benefit expense with a corresponding increase to share option reserve within equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (for example, an entity's share price);
- excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- including the impact of any non-vesting conditions (for example, the requirement for employees to save or holding of shares for a specific period of time).

Non-market vesting conditions and service conditions are included in assumptions about the number of options that are expected to vest.

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of the reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting conditions and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to share option reserve in equity.

In circumstances where employees provide services in advance of the grant date, the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised. When options are not exercised and lapsed, the share option reserve is transferred to retained earnings.

Company N	lo.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.24 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

Where the Group expects a provision to be reimbursed by another party, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

### 2.25 Contingent assets and liabilities

The Group does not recognise contingent assets and liabilities other than those arising from business combinations, but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts. A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.26 Revenue recognition

### (i) Revenue from contracts with customers

Revenue from contracts with customers is recognised by reference to each distinct performance obligation promised in the contract with customer when or as the Group transfer control of the goods or services promised in a contract and the customer obtains control of the goods or services. Revenue from contracts with customers is measured at its transaction price, being the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, net of goods and services tax, returns, rebates and discounts. Depending on the terms of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time.

The Group's revenue is derived mainly from sales of chicken and other poultry related products, such as poultry feed and processed food.

### Sales of chicken and other poultry related products

Revenue from sales of chicken and other poultry related products are recognised net of discount and goods and services tax at the point in time when control of the goods has transferred to customer. Depending on the terms of the contract with the customer, control transfers either upon delivery of the goods to locations specified by the customer and acceptance of the goods by the customer; or upon delivery of the chicken on board for onward delivery to the customer.

### Sales of poultry feed

Revenue from sales of poultry feed are recognised net of discount and goods and services tax at the point in time when control of the goods has transferred to customer. The terms of contract with the customer is ex-factory where control transfers upon the feed truck is weighed for quantity of feed loaded and accepted by customers' truck driver before it leaves the feedmill. Revenue for sales of feed by bag packaging are recognised upon delivery of the goods to locations specified by the customer and acceptance of the goods by the customer which indicate the transfer of control.

There is no element of financing present as the Group's sale of goods are either on cash term or on credit terms not exceeding 12 months.

### (ii) Revenue from other sources

Specific revenue recognition criteria for other revenue and income earned by the Group are as follows:

- Operating lease income is recognised on the straight-line basis over the lease terms. (Note 2.14(b)(ii))
- Interest income is recognised using the effective interest method.
- Dividend income is recognised when the Group's right to receive payment is established.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.27 Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. However, exchange differences are deferred in other comprehensive income when they arose from qualifying cash flow or net investment hedges or are attributable to items that form part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit or loss. All other foreign exchange gains and losses are presented in profit or loss on a net basis within other income or expenses.

Changes in the fair value of monetary securities denominated in foreign currency classified as debt instruments classified as at fair value through other comprehensive income are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as fair value through other comprehensive income, are included in other comprehensive income.

Company No.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.27 Foreign currencies (continued)

### (iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of comprehensive income presented are
  translated at average exchange rates (unless this average is not a reasonable
  approximation of the cumulative effect of the rates prevailing on the transaction dates,
  in which case income and expenses are translated at the rate on the dates of the
  transactions); and
- all resulting exchange differences are recognised as a separate component of other comprehensive income.

Goodwill and fair value adjustments arising on the acquisitions of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income.

On the disposal of a foreign operation (that is, a disposal of the Group's entire interest in a foreign operation, or a disposal involving loss of control over a subsidiary that includes a foreign operation, a disposal involving loss of joint control over a joint venture that includes a foreign operation, or a disposal involving loss of significant influence over an associate that includes a foreign operation), all of the exchange differences relating to that foreign operation recognised in other comprehensive income and accumulated in the separate component of equity are reclassified to profit or loss, as part of the gain or loss on disposal. In the case of a partial disposal that does not result in the Group losing control over a subsidiary that includes a foreign operation, the proportionate share of accumulated exchange differences are reattributed to non-controlling interests and are not recognised in profit or loss. For all other partial disposals (that is, reductions in the Group's ownership interest in associates or joint ventures that do not result in the Group losing significant influence or joint control) the proportionate share of the accumulated exchange difference is reclassified to profit or loss.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.28 Biological assets

Biological assets comprising of breeders, broilers, commercial layers and hatching eggs are measured at fair value less cost to sell. Costs to sell include the incremental selling costs, including estimated costs of transport but excludes finance costs and income taxes. Purchases of livestock are directly expensed to profit or loss when incurred. Changes in fair value of biological assets, livestock losses, the carrying amount of livestock depopulation and the carrying amount of livestock sold are recognised in the statement of comprehensive income within "Change in biological assets".

The following are further information on determining the fair value of each livestock.

### **Breeders**

The fair value of grandparent and parent breeding stock is determined using a discounted cash flow model based on the expected number of day-old-chick produced, the projected selling price of the day-old-chick, salvage value for old birds, mortality rates of the breeding stock, feed costs and consumption rates, farm house and equipment rentals, and other estimated farming cost that will be incurred throughout the remaining life of the breeder.

### Commercial layers

The fair value of pullets and layers is determined using a discounted cash flow model based on the mortality ratios of the layers, expected number of table eggs produced by each layer, the expected projected selling price of the tables eggs and salvage value for old hen and after allowing for feed costs, contributory asset charges for the land and farm houses owned by the Group and other estimated farming cost that will be incurred throughout the remaining life of the layer.

### **Broilers**

Live broilers are measured at fair value less costs to sell based on discounted cash flows model, taking into consideration the expected selling price of broilers, mortality rate, consumption rate, feed costs and other estimated farm costs that will be incurred until the point of sale, as well as transportation costs at the point of sale. The assessment of the fair value is based on internally available data, which includes saleable weight and expected selling price of live birds, costs incurred and mortality rates.

Certain live broilers are transferred to the processing plant at fair value less estimated point-of-sale costs. These broilers are then further processed when slaughtered. Once slaughtered, the biological assets are transferred to finished goods.

### Hatching eggs

The fair value of hatching eggs is determined using a discounted cash flow model based on internal hatchability ratio, the projected selling price of the day-old-chick, estimated hatchery cost to be incurred for hatching the eggs into day-old chick, contributory asset charges for the hatcheries owned by the Group.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

### 2.29 Derivative financial instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each reporting period.

The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged.

Derivatives that do not qualify for hedge accounting are classified as held for trading and accounted for at fair value through profit or loss. Changes in the fair value are recognised immediately in profit or loss.

Details of derivative instruments entered into by the Group are disclosed in Note 24 to the financial statements.

### 2.30 Land use rights

Land use rights are prepayments for leases where a significant portion of the risks and rewards of ownership are not expected to pass to the lessee and therefore are operating leases. Land use rights are carried at cost or surrogate carrying amount and are amortised on a straight line basis over the lease terms.

Land use rights are amortised over the land use rights periods ranging from 9 to 60 years.

### 2.31 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker.

The Board of Directors has appointed a Management Team which assesses the financial performance and position of the Group, and makes strategic decisions. The Management Team, which has been identified as being the chief operating decision maker, comprise the Group's chief executive officer, chief executive officer of the respective countries and the Group's chief financial officer.

Company No.		
1098663	D	

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 3 SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

The following are key assumptions concerning the future and other key sources of estimation uncertainty at the end of each reporting period that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

### (i) Biological assets

The fair value of livestock biological assets is determined using a discounted cash flow model.

In measuring the fair value of livestock biological assets, management estimates and judgements are required which includes the following:

- expected number of day-old-chick produced by each breeder
- expected table eggs produced by each laver
- expected hatchability of the hatching eggs
- expected salvage value of breeders and layers
- expected selling price of day-old-chick, table eggs, broilers
- mortality rate of livestock
- feed consumption rate and feed costs
- other estimated costs to be incurred for the remaining life of the biological assets, and at the point of sales
- discount rates

Changes to any of the above assumptions would affect the fair value of the biological assets.

The Group recorded a fair value for its biological assets of RM349,574,000 as at 31 December 2018 (2017: RM313,270,000). The key assumptions used in the discounted cash flow model and the sensitivity analysis are disclosed in Note 17 to the financial statements.

### (ii) Impairment of goodwill

Impairment loss is recognised for the amount by which the asset's or cash-generating unit's carrying amount exceeds its recoverable amount. To determine the recoverable amount, management estimates expected future cash flows from each cash-generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring expected future cash flows, management makes assumptions about future operating results. These assumptions relate to future events and circumstances. The actual result may vary, and may cause significant adjustments to the Group's assets within the next financial year.

Further details of the carrying values, key assumptions applied in the impairment assessment of goodwill and sensitivity analysis to changes in the assumptions are disclosed in Note 13 to the financial statements.

### (iii) Post-employment benefit obligation

The determination of the Group post-employment benefit obligation and employee benefits expense is dependent on its selection of certain assumptions used by independent actuary in calculating such amounts. Those assumptions include among others, discount rates, future annual salary increase, annual employee turn-over rate, disability rate, retirement age and mortality rate.

Company N	0.
1098663	D

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 3 SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

### (iii) Post-employment benefit obligation (continued)

Actual results that differ from the Group assumptions are treated in accordance with the policies as mentioned in Note 2.22 to the financial statements. While the Group actual experience or significant changes in the Group assumptions may materially affect its estimated liability for employee benefits and employee benefits expense. The carrying amount of the Group post-employment benefit obligation is disclosed in Note 31 to the consolidated financial statements.

### (iv) Income taxes

The Group is subject to income taxes in numerous jurisdictions in which the Group operates. Significant judgement is required in determining the provision for income taxes.

There are transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for tax based on estimates of assessment of the tax liability due. The Group also recognised certain tax recoverable for which the Group believes that there is reasonable basis for recognition. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the income tax and deferred tax provisions and tax recoverable balance in the financial year in which such determination is made.

### (v) Deferred taxes

Deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. This involves judgement regarding the future financial performance of the particular entity in which the deferred tax asset has been recognised. (See Note 16)

Tax expense	101,822	44,859	24	14

<sup>\*</sup> As part of the Indonesia's Government's tax incentive, Companies incorporated in Indonesia were allowed to revalue their property, plant and equipment and claim the revaluation difference as qualifying expenditure, subject to meeting certain conditions and approval by the Director General of Tax ("DGT"). Certain subsidiaries in Indonesia obtained approval from the DGT on 25 January 2017. Accordingly, it has created higher deductible temporary difference arising from the difference between tax qualifying expenditure and carrying amount of the property, plant and equipment where deferred tax assets is recognised.

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 8 TAX EXPENSE (CONTINUED)

The amounts of unutilised tax losses, deductible temporary differences on property, plant and equipment and unutilised reinvestment allowance for which no deferred tax asset has been recognised in the statements of financial position are as follows:

		Group	
	2018	2017	
	RM'000	RM'000	
Unutilised tax losses			
- expiring not more than five years	13,385	14,605	
- expiring not more than seven years^	40,441	· -	
- no expiry period	997	31,429	
Unabsorbed capital allowances			
- no expiry period	12,408	12,501	
Unutilised reinvestment allowance			
- expiring not more than seven years^	6,235	-	
- no expiry period	-	12,976	
	73,466	71,511	
	<del></del>	<del></del>	

<sup>^</sup> Under the Malaysia Finance Act 2018 which was gazetted on 27 December 2018, the Group's unutilised tax losses and unutilised reinvestment allowance amounting to RM40,441,000 and RM6,235,000 as at 31 December 2018 will be imposed with a time limit of utilisation.

Any accumulated unutilised tax losses brought forward from year of assessment 2018 can be carried forward for another 7 consecutive years of assessment (i.e. from year of assessments 2019 to 2025). Any accumulated unutilised reinvestment allowance can be carried forward for another 7 consecutive years of assessment from expiry of qualifying period.

<u>Tax Recoverable</u>		Group
	<u>2018</u>	2017
	RM'000	RM'000
Non-current	19,928	28,271
Current	25,002	16,928
	44,930	45,199

Non-current tax recoverable includes claim for tax refund with relevant tax authorities which is estimated to take more than 12-month to resolve.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 9 EARNINGS PER SHARE ("EPS")

Basic EPS of the Group is calculated by dividing the profit attributable to the owners of the Company by the weighted average numbers of ordinary shares in issue during the financial year.

For the dilutive earnings per share calculation, the average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares. The dilutive potential ordinary shares for the Group are the warrants issued by a subsidiary.

The following table reflects the income and share data used in the basic EPS computations:

		Group
	<u>2018</u>	2017
	RM'000	RM'000
Profit attributable to the owners of the Company	186,185	192,573
Weighted average number of ordinary shares in issue ('000)	955	955
Adjustment for bonus issue ('000)(i)	1,229,177	1,229,177
Adjustment for share split ('000) <sup>(i)</sup>	2,169,868	2,169,868
Total	3,400,000	3,400,000
Basic and diluted EPS (sen) (ii)	5.48	5.66

- (i) As the Company undertook bonus issue and share split exercise on 11 January 2019, the basic and diluted earnings per share have been adjusted to reflect the new number of ordinary shares of 3,400,000,000. Note 45 details the bonus issue and share split which were approved in the Extraordinary General Meeting on 11 January 2019.
- (ii) In accordance with MFRS 133 'Earnings per Share', the calculation of basic and diluted earnings per shares for all periods presented have been adjusted retrospectively as the number of ordinary shares has increases as a result of bonus issue or share split as disclosed in Note 9(i).

The outstanding warrants issued by a subsidiary do not have any impact on the diluted earnings per share as the exercise price of the warrants exceeded the average market price of the subsidiary's ordinary shares.

### Goodwill on consolidation

Goodwill acquired in a business combination is allocated at acquisition to the cash generating units that are expected to benefit from the business combination. The carrying amount of goodwill had been allocated to the following cash generating units ('CGUs') for the purpose of impairment testing.

		Group
	2018	2017
	RM'000	RM'000
<u>Malaysia</u>		
Manufacturing of animal feeds	4,021	4,021
Trading of animal health products	3,115	3,115
Poultry farming and breeding	35,330	35,330
Singapore		
Processing and marketing of consumer feed products	54,807	62,107
	97,273	104,573

The recoverable amounts of the respective CGUs are determined based on value in use calculations. These calculations use cash flow projections based on financial budgets of the specific CGUs that the goodwill is allocated to which have been approved by the Directors covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated growth rates stated below.

The key assumptions used in the value-in-use calculations are as follows:

	<u>2018</u>	<u>2017</u>
Manufacturing of animal feeds	%	%
Revenue growth rate EBITDA margin Discount rate Terminal growth rate	2.0 6.8 9.0 1.0	3.9 4.5 9.0 1.0
Trading of animals health products		
Revenue growth rate EBITDA margin Discount rate Terminal growth rate	4.0 27.0 9.0 1.0	4.0 26.5 9.0 1.0

(Incorporated in Malaysia)

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

### 13 INTANGIBLE ASSETS (CONTINUED)

The key assumptions used in the value-in-use calculations are as follows: (continued)

	<u>2018</u> %	<u>2017</u> %
Poultry farming and breeding		
Revenue growth rate	9.0	5.0
EBITDA margin	8.7	6.5
Discount rate	9.0	9.0
Terminal growth rate	1.0	1.0
Processing and marketing of consumer feed products		
Revenue growth rate	2.0 - 4.2	2.0 - 5.0
EBITDA margin	11.0	9.5
Discount rate	11.0	11.0
Terminal growth rate	2.0	2.0

Based on the assessment performed, there is no impairment of goodwill attributable to the respective CGUs. There are no reasonably possible changes in any of the key assumptions used that would cause the carrying amounts of the respective CGUs to materially exceed the recoverable amounts.

### Business customer relationship

Business customer relationship acquired in business combination are amortised over 5 years.

(Incorporated in Malaysia)

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 14 INVESTMENT IN SUBSIDIARIES (CONTINUED)

#### 31.12.2018

#### Addition of investments in subsidiaries

(a) On 5 March 2018, a direct subsidiary, Leong Hup (Malaysia) Sdn. Bhd., acquired an additional 7,000,000 ordinary shares in Teo Seng Capital Berhad, representing 2.335% of the issued and paid up capital in Teo Seng Capital Berhad for a total cash consideration of RM7,000,000. Immediately prior to the purchase, the carrying amount of the existing 2.335% of non-controlling interest in Teo Seng Capital Berhad was RM5,937,000. The Group recognised a decrease in non-controlling interests of RM5,937,000 and a decrease in equity attributable to owners of the parent of RM1,063,000.

The effect on the equity attributable to the owners is summarised as follows:

	<u>Group</u> RM'000
Carrying amount of non-controlling interests acquired Consideration paid to non-controlling interests	5,937 (7,000)
Excess of consideration paid recognised in the transactions with non-controlling interests within equity	(1,063)

(b) During the financial year, a direct subsidiary, Leong Hup Singapore Pte Ltd ("LHS") had cumulatively acquired 17,267,200 ordinary shares in PT Malindo Feedmill Tbk ("PTMF") from the open market for a total cash consideration of Rp15,450,480,000 (equivalent to RM3,902,000), resulting in the Group's equity interest in PTMF increasing from 57.27% to 58.04%.

The effect on the equity attributable to the owners is summarised as follows:

	RM'000
Carrying amount of non-controlling interests acquired Consideration paid to non-controlling interests	3,641 (3,902)
Excess of consideration paid recognised in the transactions with non-controlling interests within equity	(261)

Croun

(c) On 8 March 2018, the Company subscribed for an additional 4,881 new ordinary shares of SGD 1,000 each in the issued and paid up capital of Leong Hup Singapore Pte Ltd ("LHS") for a total consideration of SGD 4,881,000 (equivalent to RM15,311,007) by way of offsetting the equivalent amount owing to the Company. This transaction is included in non-cash investing activities. This transaction has no impact to the Group.

Group

(c) On 1 July 2017, an indirect subsidiary, Leong Hup Agrobusiness Sdn. Bhd., acquired the remaining 319,725 ordinary shares in a subsidiary, Exclusive Treasure Sdn. Bhd., representing 49% of the issued and paid up capital in Exclusive Treasure Sdn. Bhd. for a total cash consideration of RM320,000. Immediately prior to the purchase, the carrying amount of the existing 49% non-controlling interest in Exclusive Treasure Sdn. Bhd. was a deficit of RM841,000. The Group recognised an increase in non-controlling interests of RM841,000 and a decrease in equity attributable to owners of the parent of RM1,161,000.

The effect on the equity attributable to the owners is summarised as follows:

	<u>Group</u> RM'000
Carrying amount of non-controlling interests acquired Consideration paid to non-controlling interests	(841) (320)
Excess of consideration paid recognised in the transactions with non-controlling interests within equity	(1,161)

(d) On 21 November 2017, the Company subscribed 36,800 new ordinary shares of SGD 1,000 each (equivalent to RM3,049 each) in the issued and paid up capital of Leong Hup Singapore Pte. Ltd. ("LHS") for a total consideration of SGD36,800,000 (equivalent to RM112,200,000) by way of offsetting the consideration receivable from LHS arising from the disposal of Lee Say Group Pte Ltd ("LSG") to LHS. This transaction has no impact to the Group.

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 14 INVESTMENT IN SUBSIDIARIES (CONTINUED)

31.12.2017 (continued)

#### Addition of investments in subsidiaries (continued)

- (e) On 21 November 2017, an indirect subsidiary, ES Food International Pte. Ltd. capitalised the outstanding shareholders' loans amounting to SGD34,376,000 (equivalent to RM101,932,000) into additional paid up capital of 34,375,933 new ordinary shares. As a result, the new shares amounting to SGD8,604,000 (equivalent to RM26,063,000) was allocated to the non-controlling interest in proportion to their shareholding via the capitalisation of the same amount owing to a related party during financial year ended 31 December 2017.
- (f) On 21 November 2017, a direct subsidiary, Leong Hup Singapore Pte. Ltd. acquired 25% of the issued and paid up capital in ES Food International Pte. Ltd. for a total cash consideration of SGD32,000,000 (equivalent to RM104,353,000). Immediately prior to the purchase, the carrying amount of the existing 25% non-controlling interest in ES Food International Pte. Ltd. was SGD16,667,000 (equivalent to RM51,229,000). The Group recognised a decrease in non-controlling interests of RM51,229,000 and a decrease in equity attributable to owners of the parent of RM53,124,000.

The effect on the equity attributable to the owners is summarised as follows:

. ,	<u>Group</u> RM'000
Carrying amount of non-controlling interests acquired Consideration paid to non-controlling interests	51,229 (104,353)
Excess of consideration paid recognised in the transactions with non-controlling interests within equity	(53,124)

(g) On 18 August 2017, a direct subsidiary, Leong Hup Singapore Pte. Ltd. ("LHS"), entered into a conditional sale and purchase agreement with Beng Leong Investment Pte. Ltd., Ng Eng Wah, Toh Ying Seng and Heng Cheng Seng (collectively known as "Vendors") to acquire the remaining 578,445 ordinary shares in a subsidiary, Lee Say Group Pte. Ltd. ("LSG"), representing 49% of the equity interest in LSG from the Vendors for a total cash consideration of SGD112,700,000 (equivalent to RM341,402,000). The acquisition was completed on 8 December 2017. Immediately prior to the completion of acquisition, the carrying amount of the existing 49% non-controlling interest in LSG was RM196,885,000. The Group recognised a decrease in non-controlling interests of RM196,885,000 and a decrease in equity attributable to owners of the parent of RM144,517,000.

The effect on the equity attributable to the owners is summarised as follows:

	<u>Group</u> RM'000
Carrying amount of non-controlling interests acquired Consideration paid to non-controlling interests	196,885 (341,402)
Excess of consideration paid recognised in the transactions with non-controlling interests within equity	(144,517)

(Incorporated in Malaysia)

#### 31.12.2017

#### Acquisition of subsidiaries

(a) On 16 June 2017, an indirect subsidiary, New Soon Teng Poultry Sdn. Bhd. (formerly known as Morningfield Sdn. Bhd.), entered into a sale and purchase agreement with Soon Teng Poultry Sdn. Bhd. and Tan Bet Beng (collectively known as "vendors") to acquire the business and certain assets of Soon Teng Poultry Sdn. Bhd. for a total purchase consideration of RM7,794,000.

The fair value of the asset and the goodwill arising are as follow:

	At the date of <u>acquisition</u> RM'000
Property, plant and equipment Inventories	4,917 754
Fair value of net identifiable assets acquired Add: Goodwill on consolidation	5,671 2,123
Total purchase consideration Less: Equity settled consideration, representing 30% of issued paid-up capital of New Soon Teng Poultry Sdn Bhd	7,794 (2,400)
Net cash outflow for acquisition	5,394

The acquired subsidiary has contributed revenue of RM17,423,000 and loss after tax of RM809,000 to the Group since the date of acquisition up to 31 December 2017.

- (b) On 29 June 2017, the Company incorporated a new wholly owned subsidiary by subscribing for 1 new ordinary shares of SGD 1.00 each (equivalent to RM3.15 each), representing 100% of the issued and paid up capital in Leong Hup Singapore Pte. Ltd. ("LHS"), a company incorporated in Singapore, for a total cash consideration of SGD1.00 (equivalent to RM3.15). This transaction has no impact to the Group.
- (c) On 15 July 2017, a direct subsidiary, Leong Hup (Malaysia) Sdn. Bhd. has entered into a sale and purchase agreement with Leong Hup Holdings Sdn. Bhd. to acquire 2 ordinary shares of RM1.00 each, representing 100% of the issued and paid up capital of New Soon Teng Poultry Sdn Bhd (formerly known as Morningfield Sdn. Bhd.) for a total cash consideration of RM2.00. The acquisition has no material financial impact to the Group.
- (d) On 4 September 2017, an indirect subsidiary, PT Leong Ayamsatu Primadona, subscribed for 2,970,000 new ordinary shares of Rp 1,000 each, representing 99% of the issued and paid up capital in PT Mitra Bebek Persada, a newly incorporated corporation, for a total cash consideration of Rp 2,970,000,000 (equivalent to RM885,000). As a result, PT Mitra Bebek Persada became an indirect subsidiary.

### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 17 BIOLOGICAL ASSETS (CONTINUED)

The movement of biological assets can be analysed as follows: (continued)

		Group
	2018	2017
	RM'000	RM'000
Hatching eggs		
At 1 January	33,140	30,119
Additions	488,105	430,163
Culled eggs	(131,295)	(92,059)
Hatched and sold as DOC	(347,476)	(333,310)
Foreign currency translation	(319)	(1,773)
At 31 December	42,155	33,140
Others	1,506	2,183
	349,574	313,270

In measuring the fair value of biological assets management estimates and judgements are required which includes the following:

- · expected number of day-old-chick produced by each breeder
- expected table eggs produced by each layer
- expected hatchability of the hatching eggs
- expected salvage value of breeders and layers
- expected selling price of day-old-chick, table eggs and broilers
- mortality rate of livestock
- · feed consumption rate and feed costs
- other estimated costs to be incurred for the remaining life of the biological assets, and at the point of sales
- discount rates

(Incorporated in Malaysia)

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 20 OTHER RECEIVABLES, DEPOSITS AND PREPAID EXPENSES (CONTINUED)

As at 31 December 2018, certain prepaid expenses of the Group amounting to RM65,198,000 (2017: RM43,781,000) were charged to licensed banks to secure credit facilities granted to the Group as disclosed in Note 30 to the financial statements.

Amounts due from related parties (companies controlled by Lau family) arose from transactions such as management fees and rental income earned as disclosed in Note 37. In addition to the above outstanding balances, other significant transactions that occurred in the financial years ended 31 December 2017 and 31 December 2018 comprise:

#### 31 December 2017

Advances of USD3,300,000 (equivalent to RM13,357,000) were granted to Joint Honest International Enterprise Limited, a related party. The advances was unsecured, bore interest rate ranging from 4.70% - 5,39% per annum and repayable on demand. These advances had been fully repaid in financial year ended 31 December 2018.

#### 31 December 2018

Additional advance of USD3,400,000 (equivalent to RM13,639,000) were granted to Joint Honest International Enterprise Limited, a related party during the financial year and has been fully repaid as at 31 December 2018. The advance were unsecured and bore interest rate ranging from 4.60 to 4.70% per annum and repayable on demand.

Movements of the Group's impairment losses on other receivables are as follows:

		Group
	<u>2018</u>	<u>2017</u>
	RM'000	RM'000
At 1 January	3,941	5,633
Reversal of impairment loss	(119)	(1,682)
Translation differences	7	<u> </u>
At 31 December	3,829	3,941

#### 21 AMOUNT DUE FROM ULTIMATE HOLDING COMPANY

The amount due from ultimate holding company, Emerging Glory Sdn. Bhd. which arose from non-trade transactions is unsecured, denominated in Ringgit Malaysia, interest bearing at a fixed rate of 5.30% per annum (2017: interest free) and repayable on demand. The amount due from ultimate holding company has been fully settled on 28 January 2019.

#### 22 AMOUNTS DUE FROM SUBSIDIARIES

The amounts due from subsidiaries are unsecured loans which are denominated in Ringgit Malaysia, interest-free (2017: interest free) per annum and repayable on demand.

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 23 AMOUNTS DUE FROM FELLOW SUBSIDIARIES

The amounts due from fellow subsidiary are non-trade related, interest free and have credit terms of 120 days (2017: 120 days).

#### 24 DERIVATIVE FINANCIAL ASSETS/(LIABILITIES)

				Group

Derivative financial liabilities	125,615	(2,391)	31,933	(1,136)

The Company did not hold any derivative financial instruments as at 31 December 2018 (2017: Nil).

The Group does not apply hedge accounting on its derivative financial instruments.

The forward foreign exchange contracts are used to hedge the Group's purchases denominated in USD for which firm commitments existed at the end of the reporting period. The settlement dates on forward foreign exchange contracts range from 1 week to 3 months (2017: 1 month to 3 months).

The Group entered into interest rate swap to hedge its exposure to interest rate risk on its floating rate bank borrowings. The interest rate swaps reflect the positive change in fair value that are not designated in hedge relationship, but are used to manage the exposure to the risk of changes in market interest rates arising from certain floating rate bank borrowings of the Group.

The Group has recognised a loss of RM113,000 arising from fair value changes of derivatives during the financial year as disclosed in Note 6 to the financial statements. The method and assumptions applied in the determining fair values of derivatives are disclosed in Note 42(b) to the financial statements.

(Incorporated in Malaysia)

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 26 SHARE CAPITAL (CONTINUED)

The Companies Act, 2016 (the "Act", which come into operation on 31 January 2017, abolished the concept of authorised share capital and par value of share capital. Consequently, any amount standing to the credit of the share premium account of RM1,229,176,622 becomes part of the Company's share capital pursuant to the transitional provisions set out in Section 618(2) of the Act. There is no impact on the numbers of shares in issue of the relative entitlements of any of the members as a result of this transition. Notwithstanding this provision, the Company may within 24 months from the commencement of the Act, use the amount standing to the credit of its share premium of RM1,229,176,622 for purposes as set out in Section 618(3) of the Act.

As disclosed in note 45, subsequent to the financial year end, the number of shares issued and paid up has been increased to 1,230,131,992 shares following a bonus issue and share split exercise approved at an EGM held on 11 January 2019.

#### 27 MERGER RESERVE

The Group applies predecessor accounting to account for business combinations under common control. Under predecessor accounting, assets and liabilities acquired are not restated to their respective fair values. They are recognised at the carrying amounts from the consolidated financial statements of the ultimate holding company of the Group and adjusted to conform with the accounting policies adopted by the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities of the acquired entity is recognised as merger reserve.

Merger reserve mainly arose from acquired entities by the Group and the Company during the Group restructuring in year 2014 from Leong Hup Holdings Sdn Bhd, a fellow subsidiary of the Group.

#### 28 RESERVES

		Group		Company
	<u>2018</u> RM'000	<u>2017</u> RM'000	2018 RM'000	<u>2017</u> RM'000
				1411.000

	730,496	614,300	39,804	43,572

#### Foreign currency translation reserve

Exchange reserve is used to record exchange differences arising from the transaction of financial statements of subsidiaries whose functional currency differs from the Group's presentation currency.

#### Retained earnings

The entire retained earnings of the Company as at 31 December 2018 is available for distribution as dividend under the single tier system without incurring additional tax liabilities.

(Incorporated in Malaysia)

#### NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

#### 29 FINANCE LEASE LIABILITIES

Future minimum lease payments under finance leases together with the present value of the net minimum lease payments are as follows:

	Group
<u>2018</u> RM'000	<u>2017</u> RM'000
04.050	00.744
24,356 30,291	22,714 30,896
54,647	53,610
(4,467)	(3,963)
50,180	49,647
•	20,466
28,366	29,181
50,180	49,647
21,814	20,466
28,366	29,181
50,180	49,647
	24,356 30,291 54,647 (4,467) 50,180 21,814 28,366 50,180 21,814 28,366

At the date of reporting, the finance lease liabilities carry effective interest rate of 2.77% (2017: 2.88%) per annum. Finance lease liabilities are effectively secured as the rights to the leased assets revert to the lessor in the event of default.

The carrying amounts and fair values of the finance lease liabilities for the Group are as follows:

		Group
	2018	2017
	RM'000	RM'000
Carrying amount	50,180	49,647
Fair value	51,623	49,765
•		

The fair value of finance lease liabilities is estimated based on discounted cash flows using prevailing market rates for borrowings with similar risks profile and within level 2 of the fair value hierarchy.

  - (xi) A floating-rate term loan amounting to VND94.3 billion (equivalent to RM16.8million) was drawn down in several tranches during the financial year ended 31 December 2018 by an indirect subsidiary incorporated in Vietnam. The outstanding balance at the end of the financial year is VND94.3 billion (equivalent to RM16.8 million). The loan bears interest rate at 1.5% per annum above the bank's Cost of Funds ("COF") and repayable in 49 monthly instalment commencing 19 months from the first drawn date.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 30 BANK BORROWINGS (CONTINUED)

The term loans of the Group include:

## (b) Unsecured

- (i) Commodity Murabahah Term Financing ("CMTF-i") of RM120.0 million was first drawn down in September 2015 by a wholly-owned subsidiary incorporated in Malaysia. The outstanding balance at the end of the financial year ended 31 December 2018 is RM42.0 million (2017: RM66.0 million). The profit rate of this financing facility is 1.25% per annum above the bank's Cost of Funds ("COF") and repayable in 20 quarterly instalment commencing 3 months from the first drawn date.
- (ii) A floating-rate term loan amounting to RM20.0 million and RM70.0 million were drawn down in financial year ended 31 December 2017 and financial year ended 31 December 2018 respectively by a wholly-owned subsidiary incorporated in Malaysia. The oustanding balance at the end of the financial year is RM90.0 million (2017: RM20.0 million). The loan bears interest rate at 1% per annum above the bank's COF and repayable in 3 annual instalment, being RM18.0 million for the first and second instalment and RM54.0 million for the last instalment, commencing 13 months from the first drawn date.
- (iii) A floating-rate term loan amounting to RM32.0 million was drawn down in February 2018 by a wholly-owned subsidiary incorporated in Malaysia. The outstanding balance at the end of the financial year is RM32.0 million. The loan bears interest rate at 1% per annum above the bank's COF and repayable in 20 quarterly instalment of RM1.6 million each and commencing 15 months from the first drawn date.

The remaining term loans at the end of the financial year amounting to RM206.7 million (2017: RM229.8 million) have repayment terms ranging from 3 years to 10 years from respective first drawdown date and will be fully repayable by February 2026.

The non-current portion of the bank borrowings of the Group is repayable as follows:

		Group
	<u>2018</u>	<u>2017</u>
	RM'000	RM'000
Later than one year but not later than two years	275,699	206,980
Later than two years but not later than five years	728,389	525,731
Later than five years	11,879	12,543
	1,015,967	745,254

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 30 BANK BORROWINGS (CONTINUED)

The currency profile of borrowings is as follows:

		Group
	<u>2018</u>	2017
	RM'000	RM'000
Ringgit Malaysia	908,106	751,844
Singapore Dollar	553,550	539,559
US Dollar	42,570	82,659
Indonesia Rupiah	485,204	518,976
Vietnamese Dong	322,345	244,337
Philippines Peso	8,984	6,494
	2,320,759	2,143,869

Secured bank borrowings are secured by legal charges over shares of certain subsidiaries, property, plant and equipment (Note 10), investment properties (Note 11), land use rights (Note 12), biological assets (Note 17), inventories (Note 18), trade receivables (Note 19) and other receivables (Note 20) of the Group.

Borrowings of the Group are subject to certain covenants. These covenants require that certain ratios (Debt to Equity ratio, Current ratio, EBITDA to interest ratio and Debt servicing coverage ratio) to be met, limitation to certain asset sales or transferred and maintaining majority ownership in certain subsidiaries held by the Group. The Group is in compliance with these covenants at each reporting date.

The effective interest rates as at end of the financial year are as follows:

		Group
	<u>2018</u>	<u>2017</u>
	%	%
Bankers' acceptances	4.5	4.2
Bank overdrafts	5.9	5.0
Term loans	6.1	4.8
Revolving credits	5.1	6.2
Trust receipts	5.4	4.1

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 31 POST-EMPLOYMENT BENEFITS OBLIGATION

The Group operates various post-employment schemes, including both defined contributions plan (Note 5) and defined benefit plan. The Group's post-employment benefits obligation primarily arise from PT Malindo Feedmill Tbk and its subsidiaries. The Group provides defined post-employment benefits to their employees in accordance with Indonesian Labour Law No. 13/2003. No funding has been made to this defined benefit plan.

The balance of post-employment benefit obligation is based on the actuarial reports prepared by PT Prima Bhaksana Lestari, an independent actuary in Indonesia. The method used in the actuarial valuation is the "Projected Unit Credit" method with the following assumptions:

		Group
	<u>2018</u>	<u>2017</u>
Retirement age	55 years	55 years
Discount rate (per annum)	8.60%	7.25%
Annual salary increase	9.0%	9.0%

Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Indonesia.

Movements in the present value of the post-employment benefit obligation are as follows:

		Group
	2018	2017
	RM'000	RM'000
At 1 January	36,943	31,975
Current service cost	3,905	4,620
Interest cost	2,466	2,506
Benefit paid	(1,387)	(1,043)
Translation differences	(1,199)	(4,032)
Remeasurement of post-employment benefit obligation	, , ,	, ,
charged to other comprehensive income	(3,932)	2,917
At 31 December	36,796	36,943

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 31 POST-EMPLOYMENT BENEFIT OBLIGATION (CONTINUED)

The amounts recognised in consolidated statements of comprehensive income in respect of the defined benefit plan are as follows:

		Group
	<u>2018</u>	2017
	RM'000	RM'000
Current service cost	3,905	4,620
Interest cost	2,466	2,506
Expenses recognised in profit or loss	6,371	7,126
Remeasurements:		
Actuarial (gain)/loss arising from changes in financial assumptions Actuarial gain arising from experience adjustment	(3,548) (384)	3,353 (436)
Remeasurements (gain)/loss of post-employment benefit obligation recognised in other comprehensive income	(3,932)	2,917

The sensitivity of the overall pension liability to changes in the weighted principal assumptions is as follows:

		Group
	<u>2018</u>	2017
	RM'000	RM'000
Effect on current service cost		
- 1% on discount rate	3,101	3,879
+ 1% on discount rate	(2,669)	(3,086)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous period.

(Incorporated in Malaysia)

## 33 OTHER PAYABLES AND ACCRUED EXPENSES (CONTINUED)

## Provision for claims

On 8 March 2016, Competition and Consumer Commission of Singapore ("CCCS") issued a Proposed Infringement Decision against 13 fresh chicken distributors, including Lee Say Poultry Industrial, Lee Say Group Pte. Ltd., Hup Heng Poultry Industries Pte. Ltd., KSB Distribution Pte. Ltd., ES Food International Pte. Ltd. and Prestige Fortune (S) Pte. Ltd. (collectively, the "Affected Companies"), for allegedly engaging in anti-competitive agreements.

Based on legal advice, a provision was made during the financial year ended 31 December 2016 to cover the estimated cost of this alleged infringement. Following further investigations and in light of new evidence, the amount provided was reviewed and revised and an amount of RM7,617,000 was written back in the financial year ended 31 December 2017.

Written representations in defence of the Affected Companies were submitted to the CCCS on 8 February 2018, and oral representations were presented to the CCCS on 15 March 2018, and the CCCS was considering further written representations and oral representations submitted. On 12 September 2018, the CCCS have issued an infringement decision on the Affected Companies and imposed an aggregate financial penalty of SGD11,399,041 (RM34,434,223) on the Affected Companies. On 12 November 2018, the Affected Companies lodged their Notice of Appeal with the Competition Appeal Board, and are currently in the process of preparing for an appeal hearing before the Competition Appeal Board. The imposed financial penalty was fully provided for as at 31 December 2018.

## Amounts due to related parties

Amounts due to related parties (companies controlled by Lau family) arise from transactions such as transportation charges, purchases of sundries and rental expenses as disclosed in Note 37.

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. Financial risk management policy is established to ensure that adequate resources are available for the development of the Group's and of the Company's business whilst managing its financial risks. The Group and the Company operate within clearly defined policies and procedures that are approved by the Board of Directors to ensure the effectiveness of the risk management process.

The main areas of financial risks faced by the Group and the Company and the policy in respect of the major areas of treasury activity are set out as follows:

## (a) Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. It is the Group's policy to enter into financial instrument with a diversity of creditworthy counterparties. The Group does not expect to incur material credit losses of its financial assets or other financial instruments.

As of the end of the reporting date, the maximum exposure to credit risk arising from financial assets is limited to the carrying amounts in the statements of financial position.

Following are the areas where the Group is exposed to credit risk:

## (i) Trade receivables

Concentration of credit risk exists when changes in economic, industry and geographical factors similarly affect the group of counterparties whose aggregate credit exposure is significant in relation to the Group's total credit exposure. The Group's portfolio of financial instrument is broadly diversified along industry, product and geographical lines, and transactions are entered into with diverse creditworthy counterparties, thereby mitigate any significant concentration of credit risk.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. The Group does not offer credit terms without the approval of the head of credit control. With a credit policy in place to ensure the credit risk is monitored on an ongoing basis, management has taken reasonable steps to ensure that receivables are stated at their realisable values. A significant portion of the receivables are regular customers that have been transacting with the Group.

Historically, the Group's loss arising from credit risk is negligible. However, the Group considers available reasonable and supportive forward-looking information, especially the following indicators are incorporated:

- internal credit rating.
- external credit rating (as far as available)
- actual or expected significant adverse changes in business, financial or economic conditions that are expected to cause a significant change to the counterparties' ability to meet its obligations.
- actual or expected significant changes in the operating results of the counterparties.
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the counterparties that results in a significant change in the counterparties' ability to meet its debt obligations.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

## (a) Credit risk (continued)

## (i) Trade receivables (continued)

A default on a financial asset is when the counterparty fails to make contractual payments within 90 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group categorises a receivable for write off when a debtor fails to make contractual payments greater than 365 days past due. Where trade receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The Group applies the simplified approach to providing for expected credit losses prescribed by MFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables.

The Group's current credit risk grading framework comprises the following categories:

Category	Description	Basis for recognising expected credit losses ("ECL")
Performing	The customers that have no history of default.	Lifetime ECL
In-default	<ul> <li>Customers that have history of default.</li> <li>Amount that is more than 90 days past due.</li> </ul>	Lifetime ECL
Write-off	Amount that is more than 365 days and there is evidence indicating that the Group has no realistic prospect of recovery.	Asset is written off

Over the trade receivables, the group accounts for its credit risk by appropriately providing for expected credit losses on a timely basis. In calculating the expected credit loss rates, trade receivables have been assessed based on credit risk categories and the days past due, and adjusts for forward looking information.

The Group's ECL rate at the end of the reporting period is 0.045% (2017: 0.033%).

No significant changes to estimation techniques or assumptions were made during the reporting period.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

## (a) Credit risk (continued)

## (ii) Other debt investments financial assets at amortised costs

Other debt instruments financial assets at amortised cost include other receivables, non-trade amount due from ultimate holding company, amounts due from subsidiaries and non-trade amounts due from related companies.

The loss allowance provision for other financial assets at amortised cost as at 31 December 2018 and 31 December 2017 reconciles to the opening loss allowance disclosed in Note 20.

All of these financial assets are considered to have low credit risk, and thus the impairment provision recognised during the period was limited to 12 months expected losses. These financial assets instruments are considered to be low credit risk when they have a low risk of default and the counterparties have strong capacity to meet its contractual cash flow obligations in the near term.

## (iii) Financial guarantee contracts

At the date of reporting, the maximum exposure to credit risk is represented by the banking facilities (including undrawn facilities) of former subsidiary disposed in financial year 2017 amounting to RM Nil (2017: RM38,500,000). The Group's exposure on financial guarantee contract have been included in liquidity risk assessment (Note 41(b)). As at the end of the reporting period, these financial guarantee contract had been discharged by the banks and there is no financial guarantee contract granted to external parties.

## (b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

Cash flow forecasting is performed by Group finance. Group finance monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants on any of its borrowing facilities. Such forecasting takes into consideration the Group's debt financing plans, covenant compliance and compliance with internal statements of financial position ratio targets.

Surplus cash held by the subsidiaries over and above balance required for working capital management are transferred to the Group treasury. Group treasury invests surplus cash in financial instruments with appropriate maturities or sufficient liquidity to provide sufficient headroom as determined by the abovementioned forecasts.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

## (c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign currency risk on sales and purchases, borrowings and bank balances that are denominated in a currency other than the respective functional currencies of the entities within the Group. The currency giving rise to this risk is primarily Ringgit Malaysia (MYR), Singapore Dollar (SGD), United States Dollar (USD) and Indonesia Rupiah (IDR).

The following table demonstrates the sensitivity of the Group's profit for the financial year to a reasonably possible change in the MYR, SGD, USD, and IDR exchange rates against respective functional currencies, with all other variable held constant.

- Weakened 5%	425	1,384
IDR - Strengthened 5%	13	15
- Weakened 5%	(13)	(15)

## (d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

The Group's fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates. Short-term receivables and payables are not significantly exposed to interest rate risk.

The Group's interest rate management objective is to manage the interest expenses consistent with maintaining an acceptable level of exposure to interest rate fluctuation. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings, and by using interest rate swap contracts.

The Group does not account for fixed rate financial assets and liabilities through profit or loss, Therefore, a change in interest rate at the reporting date would not affect profit and loss.

# LEONG HUP INTERNATIONAL BERHAD (Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 41 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

## (d) Interest rate risk (continued)

The interest rate profile of the Group's significant interest bearing financial instruments based on the carrying amounts as of the end of the reporting period was as follows:

		Group		Company
	2018	<u>2017</u>	<u>2018</u>	<u>2017</u>
	RM'000	RM'000	RM'000	RM'000
Fixed rate instruments:				
Financial assets				
Fixed deposits with licensed bank	65,306	95,415	-	•
		<del></del>		-
Financial liabilities				
Financial liabilities Term loans	100,800	_	_	_
Finance lease liabilities	50,180	49,647	_	_ _
Amount due to subsidiaries	-	-	103,785	89,937
	150,980	49,647	103,785	89,937
Floating rate instruments:				
Financial liabilities				
Bank overdrafts	54,071	63,547	_	_
Term loans	1,176,222	948,911	-	-
Bankers' acceptances	407,449	370,317	-	-
Revolving credits	278,670	476,904	-	-
Trust receipts	303,547	284,190	-	-
	2,219,959	2,143,869	-	-
		<del></del>		

The following table illustrates the sensitivity of profit and equity to a reasonable possible change in interest rates of +/- 50 basis point ("bp"). These changes considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

	Net profit/(loss +50 bp RM'000	s) for the year -50 bp RM'000	+50 bp RM'000	Equity -50 bp RM'000

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 42 FAIR VALUE OF FINANCIAL INSTRUMENTS

## (a) Determination of fair value

<u>Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value</u>

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

<u>Asset/liability</u>	<u>Note</u>
Trade receivables	19
Other receivables, deposits and prepaid expenses	20
Amount due from ultimate holding company	21
Amounts due from subsidiaries	22
Amounts due from fellow subsidiaries	23
Cash and bank balances	25
Finance lease liabilities	29
Borrowings	30
Trade payables	32
Other payables and accrued expenses	33
Amounts due to subsidiaries	34
Amounts due to fellow subsidiaries	35

The carrying amounts of these financial assets and liabilities are reasonable approximation of fair values, either due to their short-term nature or that they are floating rate instruments that are re-priced to market interest rates on or near the reporting date.

The fair values of long term payables, which primarily comprise finance lease liabilities, are estimated by discounting expected future cash flows at market incremental lending rate for similar types of lending, borrowing or leasing arrangement at the reporting date.

## (b) Fair value measurement

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- (ii) Level 2 Valuation techniques for the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- (iii) Level 3 Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 42 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

(b) Fair value measurement (continued)

The table below analyses financial instruments carried at fair value and those not carried at fair value for which fair value is disclosed, together with their values and carrying amounts shown in the statement of financial position.

<u>Group</u>	Fair value of financial instrument carried at fair value Level 1 RM'000	Carrying <u>amount</u> RM'000
2018		
Financial Assets: Derivative financial assets	1,179	1,179
Financial liabilities: Derivative financial liabilities	2,391	2,391
2017		
<u>Financial liabilities:</u> Derivative financial liabilities	1,136	1,136

Specific valuation techniques used to value financial instruments include:

- (i) the fair value of forward foreign exchange contracts is determined using forward exchange rates at the end of the reporting date.
- (ii) The fair value of interest rate swap is determined using interest rate at the end of the reporting date.

Company No.	
1098663	D

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 42 FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)

## (b) Fair value measurement (continued)

The table below analyses assets and liabilities not carried at fair value for which fair value is disclosed, together with their values and carrying amounts shown in the statement of financial position.

	Fair value of assets not carried at fair value Level 3 RM'000	Carrying <u>amount</u> RM'000
Group		
2018		
Assets: Investment properties (Note 11)	44,800	22,304
<u>2017</u>		
Assets: Investment properties (Note 11)	41,639	22,557

Fair value of certain investment properties is based on comparison method carried out by independent firms of professional valuers in determining its fair value. These were based on recent sale transactions of comparable properties with adjustments made to reflect location, purpose visibility, size, tenure and age.

When there is no valuation performed , the fair values of the Group's investment properties are arrived by reference to market indication of transactions prices for similar properties determined by Group's Directors.

There were no transfer between all 3 levels of the fair value hierarchy during the financial year.

## (c) Other non-financial assets and liabilities measured at fair value

Other than Biological assets (Note 17), the Group does not have assets and liabilities measured at fair value at the reporting date.

Company No.		
1098663	D

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 43 CAPITAL MANAGEMENT

The primary objective of the Group's and the Company's capital management is to ensure that it maintains a strong credit rating and financially prudent capital ratios in order to support its current business as well as future expansion so as to maximise shareholder value.

The Group and the Company manage their capital structure and make adjustment to it, in light of changes in economic condition including the interest rate movements. To maintain and adjust the capital structure, the Group and the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group's debt-to-equity ratio as of the reporting period under review is as follows:

	Group
<u>2018</u>	<u>2017</u>
RM'000	RM'000
2,370,939	2,193,516
(444,457)	(490,971)
1,926,482	1,702,545
1,765,428	1,642,022
1.09	1.04
	RM'000 2,370,939 (444,457) 1,926,482 1,765,428

There were no changes in the Group's approach to capital management during the financial year. Other than the covenants on borrowings as disclosed in Note 30, the Group is not subject to any other externally imposed capital requirements.

Company No.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 44 OPERATING SEGMENTS

Operating segments are prepared in a manner consistent with the internal reporting provided to the Management Team as its chief operating decision maker in order to allocate resources to segments and to assess their performance on a quarterly basis. For management purposes, the Group is organised into business units based on their products and services provided.

The Group is organised into two main operating segments as follows:

- Livestock and poultry related products production and distribution of breeder and broiler day-old-chick, broiler chickens, eggs, animal health products and consumer food products.
- Feedmill Manufacturing and trading of animal feeds.
- (a) The Management Team assesses the performance of the operating segments based on their earnings before interest, tax, depreciation and amortisation ("EBITDA"). The accounting policies of the operating segments are the same as the Group's accounting policies.
  - Borrowings and investment-related activities are managed on a group basis by the central treasury function and are not allocated to operating segments.
- (b) Each operating segment assets is measured based on all assets of the segment.
- (c) Each operating segment liabilities is measured based on all liabilities of the segment.
- (d) Assets, liabilities and expenses which are common and cannot be meaningfully allocated to the operating segments are presented under unallocated items. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters) and head office expenses. These includes investment properties, tax recoverable/payable and borrowings.

Transactions between operating segments are carried out on agreed terms between both parties. The effects of such inter-segment transactions and balances arising thereof are eliminated.

(Incorporated in Malaysia)

## Major customers

There is no single customer that has contributed 10% or more of the Group's revenue throughout the reported financial years.

## 45 EVENTS SUBSEQUENT TO THE END OF FINANCIAL YEAR

(a) On 11 January 2019, an Extraordinary General Meeting was held by the Company and the following bonus issue and share split exercise were approved in the meeting.

## Bonus Issue

A bonus issue on a pro-rata basis to the Company's shareholders, calculated based on their respective shareholdings in the Company has been undertaken to allow the Company to fully utilise the former share premium of the Company under Section 618(3)(c) of the Companies Act 2016 ("Act") in accordance with Practice Note 1/2017 issued by the Companies Commission of Malaysia for the clarification on the utilisation of credit standing in the share premium accounts and capital redemption reserves under subsections 618(3) and 618(4) of the Act. The bonus shares was wholly capitalised at RM1.00 per bonus share. Based on the share premium of the Company of RM1,229,176,622 as at 31 December 2018, 1,229,176,622 bonus shares was issued.

The bonus issue is renounceable. As such, entitled shareholders to the bonus issue may accept or renounce their respective entitlements to the bonus shares in full or in part. Based on its shareholdings in the Company as at the 31 December 2018, Emerging Glory Sdn Bhd ("EGSB") was entitled to 946,465,999 bonus shares. However, EGSB has renounced 249,933,374 bonus shares proportionately to its shareholders, being the founding family of the Company, which resulted in the founding family members holding the Company shares directly.

Accordingly, the total number of issued and paid up ordinary share capital of the Company has increased from 955,370 shares to 1,230,131,992 shares.

(Incorporated in Malaysia)

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 45 EVENTS SUBSEQUENT TO THE END OF FINANCIAL YEAR (CONTINUED)

## (a) Share Split

Upon completion of the bonus issue, the Company undertook a subdivision of its issued share capital.

The share split entails the subdivision of the then-existing 1,230,131,992 Company's shares in issue (being the number of the Company shares in issue pursuant to the bonus issue) subdivided into 3,400,000,000 of the Company's shares.

With the completion of the bonus issue and share split, the earnings per share calculations of the Company for the financial years ended 31 December 2018 and 31 December 2017 are based on the new number of shares of 3,400,000,000.

(b) On 6 December 2018 and 9 April 2019, the Securities Commission Malaysia ("SC") has conditionally approved the Company's Proposed Listing on the Main Market of Bursa Malaysia Securities Berhad ("Listing"), subject to the fulfilment of certain terms and conditions.

## Employee Share Option Scheme ("ESOS")

In conjunction with the Listing, the Company has established the ESOS, with effect from 11 April 2019 ("Effective Date"), which involves the granting of ESOS Options ("the Options") to the eligible Directors and employees of the Group as set out in the By-Laws governing the ESOS.

The Options shall be granted to eligible Directors and employees of the Group and shall have the following key features:

- (i) The Options are for one option for one new share. The issuance of new shares for the Options shall not exceed in aggregate 5.00% of the total number issued shares of the Company (excluding treasury shares, if any) at any one time during the duration of ESOS.
- (ii) The first allocation of Options granted to eligible Directors and employees of the Group upon the Listing of the Company shall be at a maximum of 1.00% of the enlarged share capital of the Company, i.e. 36,500,000 Shares.
- (iii) The Options shall vest over 4 tranches of 25% a year, commencing from 1 July 2019. The share based payment expense in relation to the Options is to be recognised over the vesting period of the Options.
- (iv) The ESOS shall have a duration of 5 years from the Effective Date.
- (v) The ESOS is renewable for a period of up to 5 years or such shorter period immediately from the expiry of the first 5 years provided that the ESOS shall not exceed in aggregate 10 years from the Effective Date.

The ESOS shall be administered by the ESOS committee appointed by the Board of Directors of the Company and governed by the By-Laws.

## NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2018 (CONTINUED)

## 45 EVENTS SUBSEQUENT TO THE END OF FINANCIAL YEAR (CONTINUED)

## (c) Registration, lodgement and launching of Initial Public Offering ("IPO") Prospectus

On 23 April 2019, upon fulfilment of the terms and conditions set out by the SC, the IPO prospectus of the Company was registered with the SC under the Capital Markets and Services Act 2007. On 24 April 2019, the registered IPO prospectus of the Company was lodged with the Companies Commission of Malaysia. The Company has launched its IPO prospectus to the public on 25 April 2019.

## (d) Details of IPO

IPO of up to 937,500,000 ordinary shares in Leong Hup International Berhad ("LHI") (LHI Shares") ("IPO Shares") in conjunction with the listing of and quotation for the entire 3,650,000,000 LHI Shares on the Main Market of Bursa Malaysia Securities Berhad comprising an offer for sale of up to 687,500,000 existing LHI Shares ("Offer Shares") and a public issue of 250,000,000 new shares ("Issue Shares") involving:

- (i) Institutional offering of up to 839,500,000 IPO Shares to Malaysian and foreign institutional and selected investors, including Bumiputera investors approved by the Ministry of International Trade and Industry at the institutional price to be determined by way of bookbuilding ("Institutional Price"); and
- (ii) Retail offering of 98,000,000 Issue Shares to the Directors of LHI, eligible employees of LHI and its subsidiaries ("LHI Group"), persons who have contributed to the success of the LHI Group ("Eligible Persons") and the Malaysian public, at the retail price of RM1.10 per IPO Share ("Retail Price"), payable in full upon application, and subject to refund of the difference between the Retail Price and the final Retail Price in the event that the final Retail Price is less than the Retail Price.

Subject to the clawback and reallocation provisions and the over-allotment option. The final Retail Price will be equal to the lower of the Retail Price of RM1.10 per IPO Share; or the Institutional Price.

On 6 May 2019, the Institutional Price and final Retail Price has been fixed at RM1.10 per IPO Share.

The allotment of the IPO Shares and the listing of LHI Shares on the Main Market of Bursa Malaysia Securities Berhad are expected to take place on 15 May 2019 and 16 May 2019 respectively.
