DIRECTORS' REPORT

The Directors have pleasure in submitting their report together with the audited financial statements of the Group and of the Company for the financial year ended 31 December 2024.

DIRECTORS

The Directors in office during the financial year and during the period from the end of the financial year to the date of the report are:

Lau Chia Nguang
 Tan Sri Dato' Lau Eng Guang
 Tan Sri Lau Tuang Nguang
 Datuk Lau Joo Hong
 Lau Joo Han
 Lau Joo Keat
 Lau Joo Yong (Alternate Director to Tan Sri Dato' Lau Eng Guang) (Appointed on 27 August 2024)
 Low Han Kee
 Chu Nyet Kim
 Goh Wen Ling
 Tay Tong Poh
 Chan Eoi Leng (Appointed on 1 January 2025)
 Datin Paduka Rashidah Binti Ramli (Demised on 15 September 2024)

PRINCIPAL ACTIVITIES

The principal activity of the Company is investment holding.

The principal activities of the Group are the production and distribution of breeder and broiler day-old-chick, broiler chickens, eggs, animal feeds, animal health products, consumer food products, and sales of food and beverage.

The principal activities of the subsidiaries are disclosed in Note 14 to the financial statements.

There have been no significant changes in the nature of these activities during the financial year.

FINANCIAL RESULTS

	<u>Group</u> RM'000	<u>Company</u> RM'000
Net profit for the financial year	630,810	107,779
Profit attributable to:		
Owners of the Company	428,930	107,779
Non-controlling interests	201,880	-
	<u>630,810</u>	<u>107,779</u>

DIRECTORS' REPORT (CONTINUED)

RESERVES AND PROVISIONS

All material transfers to or from reserves and provisions during the financial year are shown in the financial statements.

ISSUE OF SHARES AND DEBENTURES

During the financial year, the Company increased its number of issued and paid-up share capital from 3,650,000,000 to 3,651,701,800 by way of an issuance of 1,701,800 new ordinary shares from the exercise of options under the Company's Employee Share Option Scheme at an exercise price of RM0.605 per share which amounted to RM1,029,589 (net of transaction costs).

The new ordinary shares issued rank pari passu in all respects with the existing ordinary shares of the Company.

There were no debentures issued during the financial year.

TREASURY SHARES

As at 31 December 2024, the Company held as treasury shares a total of 18,916,000 ordinary shares of its issued share capital repurchased from the open market for RM11,547,000 at an average price of RM0.61 per share. The shares purchased are being held as treasury shares in accordance with Section 127(6) of the Companies Act 2016 and are presented as a deduction from equity.

DIVIDENDS

The dividends paid or declared since the end of the previous financial year were as follows:

On 25 April 2024, the Directors have approved a single-tier interim dividend of 1.30 sen per ordinary share, amounting to RM47,450,000 in respect of the financial year ended 31 December 2024 and the dividend was paid to the shareholders on 27 May 2024.

On 26 November 2024, the Directors have approved a single-tier second interim dividend of 1.45 sen per ordinary share, amounting to RM52,935,176 in respect of the financial year ended 31 December 2024 and the dividend was paid to the shareholders on 30 December 2024.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

DIRECTORS' REPORT (CONTINUED)

DIRECTORS' REMUNERATION

The aggregate amounts of compensation received or receivable by the Directors of the Company during the financial years are as follows:

	<u>Group</u> RM'000	<u>Company</u> RM'000
Fees	2,118	733
Salaries, bonuses and other benefits	48,524	174
Defined contribution benefits	5,297	10
ESOS expense ⁽ⁱ⁾	692	692
	<u>56,631</u>	<u>1,609</u>

(i) ESOS expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied.

ULTIMATE HOLDING COMPANY

The Directors regard Emerging Glory Sdn. Bhd., a company incorporated in Malaysia, as the ultimate holding company.

EMPLOYEE SHARE OPTION SCHEME

The number of Options outstanding at the end of the financial year are as follows:

Date of offer	Exercise price	Number of options over ordinary shares ('000)				
		As at 1.1.2024	Granted and accepted	(Exercised)	(Expired)/ (Lapsed)	As at 31.12.2024
14 May 2019	RM1.10	31,517	-	-	(31,517)	-
19 July 2024	RM0.605	-	44,268	(1,702)	(180)	42,386

Details of ESOS are set out in Note 30 to the financial statements.

DIRECTORS' BENEFITS

Since the end of the previous financial year, no Director has received or become entitled to receive a benefit (other than benefits as disclosed in Directors' remuneration) by reason of a contract made by the Company or by a related corporation with the Director or with a firm of which the Director is a member, or with a company in which the Director has a substantial financial interest.

Neither during nor at the end of the financial year was the Company or any of its subsidiaries a party to any arrangements whose object was to enable the Directors to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate, except for the Options granted to Directors of the Company pursuant to the Company's ESOS.

DIRECTORS' REPORT (CONTINUED)

OTHER STATUTORY INFORMATION

- (a) Before the financial statements of the Group and of the Company were prepared, the Directors took reasonable steps:
- (i) to ascertain that proper action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and satisfied themselves that all known bad debts had been written off and that adequate provision had been made for doubtful debts; and
 - (ii) to ensure that any current assets, which were unlikely to be realised in the ordinary course of business including the values of current assets as shown in the accounting records of the Group and of the Company had been written down to an amount which the current assets might be expected so to realise.
- (b) At the date of this report, the Directors are not aware of any circumstances:
- (i) which would render the amounts written off for bad debts or the amount of the provision for doubtful debts inadequate to any substantial extent; or
 - (ii) which would render the values attributed to current assets in the financial statements of the Group and of the Company misleading; or
 - (iii) which have arisen which would render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.
- (c) At the date of this report:
- (i) there are no charges on the assets of the Group and of the Company which have arisen since the end of the financial year which secures the liabilities of any other person; and
 - (ii) there are no contingent liabilities in the Group and in the Company which have arisen since the end of the financial year.
- (d) No contingent or other liability of any company in the Group has become enforceable or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the Directors, will or may affect the ability of the Company and its subsidiaries to meet their obligations when they fall due.
- (e) At the date of this report, the Directors are not aware of any circumstances not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

DIRECTORS' REPORT (CONTINUED)

OTHER STATUTORY INFORMATION (CONTINUED)

(f) In the opinion of the Directors:

- (i) the results of the operations of the Group and of the Company during the financial year were not substantially affected by any item, transaction or event of a material and unusual nature; and
- (ii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

SUBSIDIARIES

Details of subsidiaries are set out in Note 14 to the financial statements.

LIST OF DIRECTORS OF SUBSIDIARIES

Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS

Our opinion

In our opinion, the financial statements of Leong Hup International Berhad ("the Company") and its subsidiaries ("the Group") give a true and fair view of the financial position of the Group and of the Company as at 31 December 2024, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

What we have audited

We have audited the financial statements of the Group and of the Company, which comprise the statements of financial position as at 31 December 2024 of the Group and of the Company, and the statements of comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of material accounting policies, as set out on pages 18 to 152.

Basis for opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED)
(Incorporated in Malaysia)
Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Our audit approach

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements of the Group and of the Company. In particular, we considered where the Directors made subjective judgements; for example, in respect of significant accounting estimates that involved making assumptions and considering future events that are inherently uncertain. As in all of our audits, we also addressed the risk of management override of internal controls, including among other matters, consideration of whether there was evidence of bias that represented a risk of material misstatement due to fraud.

We tailored the scope of our audit in order to perform sufficient work to enable us to provide an opinion on the financial statements as a whole, taking into account the structure of the Group and of the Company, the accounting processes and controls, and the industry in which the Group and the Company operate.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matters	How our audit addressed the key audit matters
<u>Valuation of biological assets</u> Refer to Note 2.24 for accounting policies and Note 3(i) and Note 17 to the financial statements. As at 31 December 2024, the Group has biological assets balance of RM571,763,000.	We obtained the biological assets' valuation prepared by management. The valuation is based on a discounted cash flow model. We have checked the mathematical accuracy of the valuation model prepared by management. We involved our valuation experts to evaluate the appropriateness of the methodology and key assumptions, including the discount rate used by management in the valuation of the biological assets.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED)**
(Incorporated in Malaysia)
Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

Key audit matters	How our audit addressed the key audit matters
<u>Valuation of biological assets (continued)</u> Biological assets of the Group comprise breeders, commercial layers, broilers and hatching eggs. In determining the fair value of the biological assets, the Group uses discounted cash flow model. Significant judgement is required to be made by Directors and management to estimate the key assumptions. These judgements impact the fair value of biological assets recognised. We focused on this area as key judgements are made to estimate the expected selling price of day-old-chick, table eggs and broilers as well as feed costs used for the discounted cash flow model.	We corroborated the expected number of day-old-chick, table eggs and feed consumption rate to historical data and the manufacturer's guidebook of the particular breed of poultry. In respect of the projected selling prices and feed costs, we performed back-testing by comparing the projected prices against historical prices and/or latest available prices and cost and checked the reasonableness of adjustments made for abnormal market movements. We assessed the appropriateness of the range used to test the sensitivity analysis performed by management as disclosed in Note 17 to the financial statements. We reviewed the adequacy of the disclosures in the financial statements. Based on the above procedures performed, we do not find material exceptions to the Directors and management's assessment on the valuation of biological assets as at 31 December 2024.

We have determined that there are no key audit matters to report for the Company.

Information other than the financial statements and auditors' report thereon

The Directors of the Company are responsible for the other information. The other information comprises the Directors' Report and contents in the 2024 Annual Report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

**INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED)**
(Incorporated in Malaysia)
Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the financial statements

The Directors of the Company are responsible for the preparation of the financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT
TO THE MEMBERS OF LEONG HUP INTERNATIONAL BERHAD (CONTINUED)
(Incorporated in Malaysia)
Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- (a) Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- (b) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- (c) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- (d) Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- (e) Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- (f) Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

**INDEPENDENT AUDITORS' REPORT

Registration No. 201401022577 (1098663-D)

REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS (CONTINUED)

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER LEGAL AND REGULATORY REQUIREMENTS

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiaries of which we have not acted as auditors, are disclosed in Note 14 to the financial statements.

OTHER MATTERS

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024

1 GENERAL INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia. The address of the principal place of business and registered office is as follows:

Principal place of business

3rd Floor, Wisma Westcourt,
No. 126, Jalan Kelang Lama,
58000 Kuala Lumpur,
Malaysia.

Registered office

Unit 30-01, Level 30, Tower A, Vertical Business Suite
Avenue 3, Bangsar South
No.8, Jalan Kerinchi
59200 Kuala Lumpur

The Directors regard Emerging Glory Sdn. Bhd., a company incorporated in Malaysia, as the ultimate holding company.

The principal activity of the Company is investment holding. The principal activities of the Group are the production and distribution of breeder and broiler day-old-chick, broiler chickens, eggs, animal feeds, animal health products and consumer food products. The principal activities of its subsidiaries are disclosed in Note 14 to the financial statements. There have been no significant changes in the nature of these activities during the financial year.

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES

2.1 Basis of preparation

The financial statements of the Group and Company have been prepared in accordance with Malaysian Financial Reporting Standards ('MFRS'), International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

The financial statements have been prepared under the historical cost convention except as disclosed in the summary of accounting policies below.

The preparation of financial statements in conformity with MFRS requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reported period. It also requires Directors and management to exercise their judgement in the process of applying the Group and Company's accounting policies. Although these estimates and judgement are based on the Directors and management's best knowledge of current events and actions, actual results may differ. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.2 Standards, amendments to published standards and interpretations that are effective

The Group has applied the following standards and amendments for the first time for the financial year beginning on 1 January 2024:

- Amendments to MFRS 16 'Lease liability in a Sale and Leaseback'
- Amendments to MFRS 101 'Classification of liabilities as current or non-current' ('2020 amendments') and 'Non-current Liabilities with Covenants' ('2022 amendments')
- Amendments to MFRS 107 and MFRS 7 'Supplier Finance Arrangements'

The amendments listed above did not have any impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

2.3 Standards and amendments that have been issued but not yet effective

A number of new standards and amendments to standards and interpretations are effective for financial year beginning after 1 January 2024. None of these is expected to have a significant effect on the financial statements of the Group.

New standards and amendments effective from financial year beginning 1 January 2025:

- Amendments to MFRS 121 'Lack of Exchangeability'

New standards and amendments effective from financial year beginning 1 January 2026:

- Annual Improvements to MFRS 'Accounting Standards—Volume 11'
- Amendments to MFRS 9 and MFRS 7 'Amendments to the Classification and Measurement of Financial Instruments'
- Amendments to MFRS 9 and MFRS 7 'Contracts Referencing Nature-dependent Electricity'

New standards and amendments effective from financial year beginning 1 January 2027:

- Amendments to MFRS 18 'Presentation and Disclosure in Financial Statements'
- Amendments to MFRS 19 'Subsidiaries without Public Accountability: Disclosures'

The amendments shall be applied retrospectively.

The Group is in the process of assessing the full impact of the above standards and amendments to published standards on the financial statements of the Group in the financial year of initial application.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.4 Basis of consolidation

The principal accounting policies applied in the preparation of the financial statements are set out below:

(a) Subsidiaries

Subsidiaries are all entities over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Business combinations under acquisition method

The Group applies the acquisition method to account for business combinations when the acquired sets of activities and assets meet the definition of a business. The Group determines that it has acquired a business when the acquired set of activities and assets include an input and a substantive process that together significantly contribute to the ability to create outputs. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred to the former owners of the acquiree and the equity interests issued by the Group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement and fair value of any pre-existing equity interest in the subsidiary. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any non-controlling interest in the acquiree on an acquisition-by-acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the recognised amounts of acquiree's identifiable net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the identifiable net assets acquired is recognised as goodwill (refer to accounting policy Note 2.5 on goodwill). If the total of consideration transferred, non-controlling interest recognised and previously held interest measured is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the profit or loss.

Acquisition-related costs are expensed as incurred.

If the business combination is achieved in stages, the carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date, any gains or losses arising from such re-measurement are recognised in profit or loss.

Any contingent consideration to be transferred by the Group is recognised at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration that is deemed to be an asset or liability is recognised in accordance with MFRS 9 in profit or loss. Contingent consideration that is classified as equity is not remeasured, and its subsequent settlement is accounted for within equity.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.4 Basis of consolidation (continued)

(a) Subsidiaries (continued)

Business combination under common control

The Group applies predecessor accounting to account for business combinations under common control. Under predecessor accounting, assets and liabilities acquired are not restated to their respective fair values. They are recognised at the carrying amounts from the consolidated financial statements of the ultimate holding company of the Group and adjusted to conform with the accounting policies adopted by the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities of the acquired entity is recognised as an adjustment to merger reserve. No additional goodwill is recognised.

The acquired entity's results, assets and liabilities are consolidated from the date on which the business combination between entities under common control occurred. Consequently, the consolidated financial statements do not reflect the results of the acquired entity for the period before the transaction occurred. The comparative information is not restated.

Transactions between Group companies

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Where necessary, adjustments are made to the financial statements of subsidiaries to ensure consistency of accounting policies with those adopted by the Group.

Non-controlling interests

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss, statement of comprehensive income, statement of changes in equity and statement of financial position respectively.

Transactions with non-controlling interests that do not result in loss of control are accounted for as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in equity attributable to owners of the Group.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.4 Basis of consolidation (continued)

(b) Investments in subsidiaries and associates in separate financial statements

In the Company's separate financial statements, investments in subsidiaries and associates are carried at cost less accumulated impairment losses. On disposal of investments in subsidiaries and associates, the difference between disposal proceeds and the carrying amounts of the investments are recognised in profit or loss.

The amounts due from subsidiaries of which the Company does not expect repayment in the foreseeable future are considered as part of the Company's investments in the subsidiaries.

2.5 Goodwill

Goodwill arises from a business combination and represents the excess of the aggregate of fair value of the consideration transferred, the amount of any non-controlling interest in the acquiree and the fair value of any previously held equity interest in the acquiree over the fair value of the net identifiable assets acquired and liabilities assumed on the acquisition date. If the fair value of consideration transferred, the amount of non-controlling interest and the fair value of previously held interest in the acquiree are less than the fair value of the net assets of the subsidiary of the acquiree, the resulting gain is recognised directly in profit or loss.

Goodwill on acquisition of subsidiaries is included in the statement of financial position as intangible assets. Goodwill is not amortised but it is tested for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired, and carried at cost less accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is allocated to each of the cash generating units ('CGUs'), or groups of CGUs, that is expected to benefit from the synergies of the combination. Each unit or group of units to which the goodwill is allocated represents the lowest level within the entity at which the goodwill is monitored for internal management purposes. The carrying value of goodwill is compared to the recoverable amount, which is the higher of value in use and the fair value less costs of disposal. Any impairment is recognised immediately as an expense and is not subsequently reversed.

Goodwill on acquisitions of associates is included in investments in associates. Such goodwill is tested for impairment as part of the total carrying value.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.6 Property, plant and equipment

All property, plant and equipment are stated at historical cost less accumulated depreciation and impairment losses. The cost of an item of property, plant and equipment initially recognised includes its purchase price, import duties, non-refundable purchase taxes and any cost that is directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Cost also includes borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are recognised as expenses in profit or loss during the period in which they are incurred.

Gains or losses on disposals are determined by comparing proceeds with carrying amount and are included in profit or loss.

Freehold land is not depreciated as it has an infinite life. Other property, plant and equipment are depreciated on the straight-line method to allocate the cost, to their residual values over their estimated useful lives, summarised as follows:

Buildings	2% - 12.5%
Land improvement	2% - 5%
Plant and machinery	5% - 20%
Motor vehicles	10% - 20%
Furniture, fittings, equipment and renovation	5% - 50%

Depreciation on assets under construction commences when the assets are ready for their intended use.

Residual values and useful lives of assets are reviewed, and adjusted if appropriate, at the end of each reporting period.

At the end of the reporting period, the Group assesses whether there is any indication of impairment. If such indications exist, an analysis is performed to assess whether the carrying amount of the asset is fully recoverable. A write down is made if the carrying amount exceeds the recoverable amount. Refer to accounting policy Note 2.8 on impairment of non-financial assets.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.7 Investment properties

Investment properties, comprising principally land and buildings, are held for long term rental yields or for capital appreciation or both, and are not occupied by the Group.

Investment property is measured initially at its cost, including professional fees for legal services, property transfer taxes, other transaction costs and borrowing costs if the investment property meets the definition of a qualifying asset.

After initial recognition, investment property is stated at cost less any accumulated depreciation and impairment losses. Investment property is depreciated on the straight-line basis to allocate the cost to their residual values over their estimated useful lives of 8 to 50 years.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Investment property is derecognised either when it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal.

Gains or losses on disposals are determined by comparing net disposal proceeds with the carrying amount and are included in profit or loss.

If an item of owner-occupied property becomes an investment property because its use has changed, the carrying amount of the property does not change.

LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.8 Impairment of non-financial assets

Assets that have an indefinite useful life, for example goodwill or intangible assets not ready to use, are not subject to amortisation and are tested annually for impairment. The Group also assesses goodwill, intangible assets with indefinite useful life and other assets that are subject to amortisation for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the carrying amount of the asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value-in-use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows which are largely independent of the cash inflows from other assets or groups of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date.

The impairment loss is charged to profit or loss unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Impairment losses on goodwill are not reversed. In respect of other assets, any subsequent increase in recoverable amount is recognised in profit or loss unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus reserve.

2.9 Financial assets

(a) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income ('OCI') or through profit or loss), and
- those to be measured at amortised cost

(b) Recognition and derecognition

Regular way purchases and sales of financial assets are recognised on trade-date, the date on which the Group commits to purchase or sell the asset. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.9 Financial assets (continued)

(c) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss ('FVTPL'), transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at FVTPL are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest ('SPPI').

Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. The Group reclassifies debt investments when and only when its business model for managing those assets changes.

There are three measurement categories into which the Group classifies its debt instruments:

(i) Amortised cost

Assets that are held for collection of contractual cash flows where those cash flows represent SPPI are measured at amortised cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss and presented in other income/(expenses) together with foreign exchange gains and losses. Impairment losses are included as other expenses in the statement of comprehensive income.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.9 Financial assets (continued)

(c) Measurement (continued)

Debt instruments (continued)

(ii) Fair value through other comprehensive income ('FVOCI')

Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent SPPI, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income/(expenses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income/(expenses) and impairment losses are included as other expenses in the statement of comprehensive income.

(iii) Fair value through profit or loss ('FVTPL')

Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVTPL. The Group may also irrevocably designate financial assets at FVTPL if doing so significantly reduces or eliminates a mismatch created by assets and liabilities being measured on different bases. Fair value changes is recognised in profit or loss and presented net within other income/(expenses) in the period which it arises.

Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in OCI, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at FVTPL are recognised in other income/(expenses) in the statement of comprehensive income.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.9 Financial assets (continued)

(d) Subsequent measurement – Impairment

Impairment for debt instruments and financial guarantee contracts

The Group assesses on a forward looking basis the expected credit loss ('ECL') associated with its debt instruments carried at amortised cost and at FVOCI and financial guarantee contracts issued. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

The Group and Company have five types of financial instruments that are subject to the ECL model:

- Trade receivables
- Other receivables and deposits
- Amounts due from intercompanies
- Amounts due from associates
- Cash and cash equivalents

While cash and cash equivalents are also subject to the impairment requirements of MFRS 9, the identified impairment loss was immaterial.

ECL represent a probability-weighted estimate of the difference between present value of cash flows according to contract and present value of cash flows the Group expects to receive, over the remaining life of the financial instrument. For financial guarantee contracts, the ECL is the difference between the expected payments to reimburse the holder of the guaranteed debt instrument less any amounts that the Group or Company expects to receive from the holder, the debtor or any other party.

The measurement of ECL reflects:

- an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- the time value of money; and
- reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

(i) General 3-stage approach for other receivables, deposits and non-trade amounts due from intercompanies and associates

At each reporting date, the Group measures ECL through loss allowance at an amount equal to 12 month ECL if credit risk on a financial instrument or a group of financial instruments has not increased significantly since initial recognition. For all other financial instruments, a loss allowance at an amount equal to lifetime ECL is required. Note 44 sets out the measurement details of ECL.

(ii) Simplified approach for trade receivables and trade amounts due from intercompanies

The Group applies the MFRS 9 simplified approach to measure ECL which uses a lifetime ECL for all trade receivables. Note 44 sets out the measurement details of ECL.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.9 Financial assets (continued)

(d) Subsequent measurement – Impairment (continued)

Significant increase in credit risk

The Group considers the probability of default upon initial recognition of asset and whether there has been a significant increase in credit risk on an ongoing basis throughout each reporting period. To assess whether there is a significant increase in credit risk, the Group compares the risk of a default occurring on the asset as at the reporting date with the risk of default as at the date of initial recognition. It considers available reasonable and supportable forward-looking information.

Macroeconomic information is incorporated as part of the internal rating model. Regardless of the analysis above, a significant increase in credit risk is presumed if a debtor is more than 30 days past due in making a contractual payment.

Definition of default and credit-impaired financial assets

The Group defines a financial instrument as default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

Quantitative criteria:

The Group defines a financial instrument as default, when the counterparty fails to make contractual payment within 180 days of when they fall due.

Qualitative criteria:

The debtor meets unlikelihood to pay criteria, which indicates the debtor is in significant financial difficulty. The Group considers the following instances:

- the debtor is in breach of financial covenants
- concessions have been made by the lender relating to the debtor's financial difficulty
- it is becoming probable that the debtor will enter bankruptcy or other financial reorganization
- the debtor is insolvent

Financial instruments that are credit-impaired are assessed on individual basis.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.9 Financial assets (continued)

(d) Subsequent measurement – Impairment (continued)

Groupings of instruments for ECL measured on collective basis

(i) Collective assessment

To measure ECL, trade receivables arising from poultry business have been grouped based on shared credit risk characteristics of customer's geographical location and the days past due.

(ii) Individual assessment

Trade receivables which are in default or credit-impaired are assessed individually. Amounts due from intercompanies and amounts due from associates in the Group and the Company's financial statements are assessed on individual basis for ECL measurement, as credit risk information is obtained and monitored based on each entities' receivables.

Write-off

(i) Trade receivables and trade amounts due from intercompanies

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 365 days past due.

Impairment losses on trade receivables are presented as net impairment losses within operating profit. Subsequent recoveries of amounts previously written off are credited against the same line item.

(ii) Other receivables, deposits, non-trade amount due from intercompanies and amounts due from associates

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. The assessment of no reasonable expectation of recovery is based on unavailability of debtor's sources of income or assets to generate sufficient future cash flows to repay the amount. The Group may write-off financial assets that are still subject to enforcement activity. Subsequent recoveries of amounts previously written off will result in impairment gains.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.10 Leases

Accounting by lessee

Leases are recognised as right-of-use ('ROU') asset and a corresponding liability at the date on which the leased asset is available for use by the Group (i.e. the commencement date).

Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of properties for which the Group is a lessee, it has elected the practical expedient provided in MFRS 16 not to separate lease and non-lease components. Both components are accounted for as a single lease component and payments for both components are included in the measurement of lease liability.

Lease term

In determining the lease term, the Group considers all facts and circumstances that create an economic incentive to exercise an extension option, or not to exercise a termination option. Extension options (or periods after termination options) are only included in the lease term if the lease is reasonably certain to be extended (or not to be terminated).

The Group reassess the lease term upon the occurrence of a significant event or change in circumstances that is within the control of the Group and affects whether the Group is reasonably certain to exercise an option not previously included in the determination of lease term, or not to exercise an option previously included in the determination of lease term. A revision in lease term results in remeasurement of the lease liabilities. See accounting policy below on reassessment of lease liabilities.

ROU assets

ROU assets are initially measured at cost comprising the following:

- The amount of the initial measurement of lease liability;
- Any lease payments made at or before the commencement date less any lease incentive received;
- Any initial direct costs; and
- Decommissioning or restoration costs.

ROU assets that are not investment properties are subsequently measured at cost, less accumulated depreciation and impairment loss (if any). The ROU assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the ROU asset is depreciated over the underlying asset's useful life. In addition, the ROU assets are adjusted for certain remeasurement of the lease liabilities.

The Group applies the fair value model to ROU assets that meet the definition of investment property of MFRS 140 consistent with those investment properties owned by the Group. Refer to accounting policy Note 2.7 on investment property.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.10 Leases (continued)

Accounting by lessee (continued)

ROU assets (continued)

The Group leases various lands, buildings and equipment. The right-of-use assets are depreciated over the following leases terms which included extension options that had been assessed at inception date that would be exercised based on the prevailing economic conditions.

Leasehold land	32 - 99 years
Land use rights	20 - 60 years
Land from operating lease	2 - 60 years
Buildings	1 - 15 years
Plant and machinery	1 - 12 years

Lease liabilities

Lease liabilities are initially measured at the present value of the lease payments that are not paid at that date. The lease payments include the following:

- Fixed payments (including in-substance fixed payments), less any lease incentive receivable;
- Variable lease payments that are based on an index or a rate, initially measured using the index or rate as at the commencement date;
- Amounts expected to be payable by the Group under residual value guarantees;
- The exercise price of a purchase and extension options if the group is reasonably certain to exercise that option; and
- Payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing is used. This is the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the ROU in a similar economic environment with similar term, security and conditions.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Variable lease payments that depend on sales are recognised in profit or loss in the period in which the condition that triggers those payments occurs.

The Group presents the lease liabilities as a separate line item in the statement of financial position. Interest expense on the lease liability is presented within the finance cost in profit or loss in the statement of comprehensive income.

LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.11 Trade and other receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. Other receivables generally arise from transactions outside the usual operating activities of the Group. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, where they are recognised at fair value plus transaction costs. Other receivables are recognised initially at fair value plus transaction costs. Transaction costs include transfer taxes and duties.

After recognition, trade and other receivables are subsequently measured at amortised cost using the effective interest method, less provision for impairment. Refer to accounting policy Note 2.9(d) on impairment of financial assets.

2.12 Inventories

Inventories are stated at the lower of cost and net realisable value. The cost is determined using first in, first out method or weighted average costs, as applicable. The cost of finished goods and work in progress comprises raw materials, direct labour, other direct costs, including import duties and other taxes and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity. It excludes borrowing costs. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business, less the costs of completion and the estimated costs necessary to make the sale.

2.13 Cash and cash equivalents

For the purpose of the statements of cash flows, cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. Cash and cash equivalents comprise cash on hand, deposits held at call with financial institutions, other short term, highly liquid investments with original maturities of 3 months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts, less restricted cash. Restricted cash includes restricted deposits held as compensating balances against credit facilities arrangements.

Bank overdrafts which are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents in the statement of cash flows. In the statement of financial position, banks overdrafts are shown within borrowings in current liabilities.

2.14 Share capital

(a) Classification

Ordinary shares are classified as equity.

(b) Share issue costs

Incremental costs directly attributable to the issue of new shares are deducted against equity.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS – 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.14 Share capital (continued)

(c) Dividend distribution

Liability is recognised for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the Group, on or before the end of the reporting period but not distributed at the end of the reporting period.

Distributions to holders of an equity instrument is recognised directly in equity.

(d) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Company, excluding any costs of servicing equity other than ordinary shares
- by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the financial year and excluding treasury shares.

Diluted earnings per share

Diluted earnings per share adjusts the figures in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares, and
- the weighted average number of additional ordinary shares that would have been outstanding assuming the conversion of all dilutive potential ordinary shares.

2.15 Trade payables

Trade payables represent liabilities for goods or services provided to the Group prior to the end of financial year which are unpaid. Trade payables are classified as current liabilities unless payment is not due within 12 months after the reporting period. If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value net of transaction costs incurred, which include transfer taxes and duties.

Trade payables are subsequently measured at amortised cost using the effective interest method.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.16 Borrowings

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently carried at amortised cost; any difference between initial recognised amount and the redemption amount is recognised in profit or loss over the period of the borrowings using the weighted average effective interest method.

Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised as a pre-payment for liquidity services and amortised over the period of the facility to which it relates.

Preference shares, which are mandatorily redeemable on a specific date, are classified as liabilities. The dividends on these preference shares are recognised as finance cost in profit or loss.

Borrowings are removed from the statement of financial position when the obligation specified in the Contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

Where the terms of a financial liability are renegotiated and the Company issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.17 Current and deferred income tax

Tax expense for the period comprises current and deferred income tax. The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses. Tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case the tax is also recognised in other comprehensive income or directly in equity, respectively.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the countries where the Company and its subsidiaries, joint ventures and associates operate and generate taxable income.

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities. This liability is measured using the single best estimate of the most likely outcome.

Deferred tax is provided in full, using the liability method, on temporary differences arising between the amounts attributed to assets and liabilities for tax purposes and their carrying amounts in the financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred tax is determined using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period and are expected to apply when the related deferred tax asset is realised or the deferred tax liability is settled.

Deferred tax assets including tax benefit from investment tax credit, including reinvestment allowance are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, unused tax losses or unused tax credits can be utilised.

Deferred tax liability is recognised for all taxable temporary differences associated with investments in subsidiaries, associates, except where the timing of the reversal of the temporary difference is controlled by the parent, investor and it is probable that the temporary difference will not reverse in the foreseeable future. Generally the investor is unable to control the reversal of the temporary difference for associates. Only where there is an agreement in place that gives the investor the ability to control the reversal of the temporary difference, a deferred tax liability is not recognised.

Deferred income tax assets are recognised on deductible temporary differences arising from investments in subsidiaries, associates and joint arrangements only to the extent that it is probable the temporary difference will reverse in the future and there is sufficient taxable profit available against which the deductible temporary difference can be utilised.

Deferred and income tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income tax assets and liabilities relate to taxes levied by the same taxation authority on either the taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.18 Employee benefits

Short term employee benefits

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as other payables in the statement of financial position.

2.19 Share-based payments - Employee options

The Group operates an equity-settled, share-based compensation plan under which the entity receives services from employees as consideration for equity instruments (options) of the Group. The fair value of the options granted in exchange for the services of the employees are recognised as employee benefit expense with a corresponding increase to share option reserve within equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (for example, an entity's share price);
- excluding the impact of any service and non-market performance vesting conditions (for example, profitability, sales growth targets and remaining an employee of the entity over a specified time period); and
- including the impact of any non-vesting conditions (for example, the requirement for employees to save or holding of share options for a specific period of time).

Non-market vesting conditions and service conditions are included in assumptions about the number of options that are expected to vest.

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. At the end of the reporting period, the Group revises its estimates of the number of options that are expected to vest based on the non-market vesting conditions and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to share option reserve in equity.

In circumstances where employees provide services in advance of the grant date, the grant date fair value is estimated for the purposes of recognising the expense during the period between service commencement period and grant date.

When the options are exercised, the Company issues new shares. The proceeds received net of any directly attributable transaction costs are credited to equity when the options are exercised. When options are not exercised and lapsed, the share option reserve is transferred to retained earnings.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.19 Share-based payments - Employee options (continued)

In its separate financial statements of the Company, the grant by the Company of options over its equity instruments to the employees of subsidiary in the Group is treated as a capital contribution to the subsidiary. The fair value of options granted to employees of the subsidiary in exchange for the services of the employees to the subsidiary are recognised as investment in subsidiary, with a corresponding credit to equity of the Company.

Modification and Cancellation

If the terms of an equity-settled award are modified, at a minimum an expense is recognised as if the terms had not been modified. An additional expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a cancelled award is substituted by a new award, and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph. If the Company does not identify a new award granted as replacement equity instruments for the cancelled award, the new award is accounted as a new grant of equity instruments

If an equity award is cancelled by forfeiture, when the vesting conditions (other than market conditions) have not been met, any expense not yet recognised for that award, as at the date of forfeiture, is treated as if it had never been recognised. At the same time, any expense previously recognised on such cancelled equity awards are reversed from the accounts effective as at the date of forfeiture.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share.

2.20 Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of the amount can be made.

Where the Group expects a provision to be reimbursed by another party, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of management's best estimate of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as finance cost expense.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.21 Contingent assets and liabilities

The Group does not recognise contingent assets and liabilities other than those arising from business combinations, but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts.

A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Group. The Group does not recognise contingent assets but discloses its existence where inflows of economic benefits are probable, but not virtually certain.

2.22 Revenue recognition

(i) Revenue from contracts with customers

Revenue from contracts with customers is recognised by reference to each distinct performance obligation promised in the contract with customer when or as the Group transfer control of the goods or services promised in a contract and the customer obtains control of the goods or services. Revenue from contracts with customers is measured at its transaction price, being the amount of consideration to which the Group expects to be entitled in exchange for transferring promised goods or services to a customer, net of applicable tax, returns, rebates and discounts. Depending on the terms of the contract, revenue is recognised when the performance obligation is satisfied, which may be at a point in time or over time.

The Group's revenue is derived mainly from sales of chicken and other poultry related products, such as poultry feed and processed food.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.22 Revenue recognition (continued)

(i) Revenue from contracts with customers (continued)

Sales of chicken and other poultry related products

Revenue from sales of chicken and other poultry related products including eggs are recognised net of discount and applicable tax at the point in time when control of the goods has transferred to customer. Depending on the terms of the contract with the customer, control transfers either upon delivery of the goods to locations specified by the customer and acceptance of the goods by the customer; or upon delivery of the chicken on board for onward delivery to the customer.

Sales of feed

Revenue from sales of poultry feed are recognised net of discount and applicable tax at the point in time when control of the goods has transferred to customer. The terms of contract with the customer is ex-factory where control transfers upon the feed truck is weighed for quantity of feed loaded and accepted by customers' truck driver before it leaves the feedmill. Revenue for sales of feed by bag packaging are recognised upon delivery of the goods to locations specified by the customer and acceptance of the goods by the customer which indicate the transfer of control.

There is no element of financing present as the Group's sale of goods are either on cash term or on credit terms not exceeding 12 months.

(ii) Revenue from other sources

Specific revenue recognition criteria for other revenue and income earned by the Group are as follows:

- Lease income is recognised on the straight-line basis over the lease terms. (Note 2.10).
- Dividend income is recognised when the Group's right to receive payment is established.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.23 Foreign currencies

(i) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The financial statements are presented in Ringgit Malaysia, which is the Company's functional and presentation currency.

(ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss. However, exchange differences are deferred in other comprehensive income when they arose from qualifying cash flow or net investment hedges or are attributable to items that form part of the net investment in a foreign operation.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in profit or loss. All other foreign exchange gains and losses are presented in profit or loss on a net basis within other income or expenses.

Changes in the fair value of monetary securities denominated in foreign currency classified as debt instruments classified as at fair value through other comprehensive income are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in profit or loss, and other changes in carrying amount are recognised in other comprehensive income.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as fair value through other comprehensive income, are included in other comprehensive income.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.23 Foreign currencies (continued)

(iii) Group companies

The results and financial position of all the Group entities (none of which has the currency of a hyperinflationary economy) that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the date of that statement of financial position;
- income and expenses for each statement of comprehensive income presented are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at the rate on the dates of the transactions); and
- all resulting exchange differences are recognised as a separate component of other comprehensive income.

Goodwill and fair value adjustments arising on the acquisitions of a foreign entity are treated as assets and liabilities of the foreign entity and translated at the closing rate. Exchange differences arising are recognised in other comprehensive income.

On consolidation, exchange differences arising from the translation of any net investment in foreign entities, and of borrowings and other financial instruments designated as hedges of such investments, are recognised in other comprehensive income.

2.24 Biological assets

Biological assets comprising of breeders, broilers, commercial layers and hatching eggs are measured at fair value less cost to sell. Costs to sell include the incremental costs directly attributable to the sale of biological assets but excludes finance costs and income taxes. Purchases of livestock are directly expensed to profit or loss when incurred. Changes in fair value of biological assets, livestock losses, the carrying amount of livestock depopulation and the carrying amount of livestock sold are recognised in the statement of comprehensive income within "Change in fair value of biological assets".

The following are further information on determining the fair value of each livestock.

Breeders

Breeders comprise grandparents and parent breeding stocks. The fair value of grandparents and parent breeding stocks is determined using a discounted cash flow model over their lifespan based on the expected cash inflow from day-old-chick or hatching egg produced by each breeder, less expected costs incurred, and imputed contributory assets charges for the assets essential for the production of day-old-chick.

Commercial layers

Commercial layers comprise pullets and layers. The fair value of pullets and layers is determined using a discounted cash flow model over their lifespan based on the expected cash inflow from table eggs produced by each layer, less expected costs incurred, and imputed contributory assets charges for the assets essential for the production of table eggs.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES (CONTINUED)

2.24 Biological assets (continued)

Broilers

The fair value of the broilers is determined using a discounted cash flow model based on expected selling price of broilers less estimated costs incurred over the life span until the point of sale.

Certain broilers are transferred to the processing plant at fair value less estimated point-of-sale costs. These broilers are then further processed when slaughtered. Once slaughtered, the biological assets are transferred to inventory.

Hatching eggs

The fair value of hatching eggs is determined using a discounted cash flow model based on expected cash inflow from expected selling price of day-old-chick or hatching egg less estimated hatchery costs to be incurred for hatching the eggs into day-old-chick, and imputed contributory asset charges for the assets essential for the hatchery production.

2.25 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker.

The Board of Directors has appointed a Management Team which assesses the financial performance and position of the Group, and makes strategic decisions. The Management Team, which has been identified as being the chief operating decision maker, comprise the Group's chief executive officer, chief executive officer of the respective countries and the Group's chief financial officer.

2.26 Government grants

Grants from the government are recognised at their fair value where there is a reasonable assurance that the grant will be received and the Group will comply with all attached conditions.

Government grants related to income are recognised in profit or loss within "other income" over the periods to match the related costs for which the grants are intended to compensate.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated by the Directors and management and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The estimates and judgements that affect the application of the Group's accounting policies and disclosures, and have a significant risk of causing a material adjustment to the carrying amounts of assets, liabilities, income and expenses are discussed below:

(i) **Biological assets**

The fair value of biological assets is determined using a discounted cash flow model. Directors and management estimates are required in measuring the fair value of biological assets. Changes to any of these assumptions would affect the fair value of the biological assets.

Breeders

In measuring the fair value of breeders, management's estimation includes the expected number of day-old-chick produced by each breeders, the expected selling price of the day-old-chick or hatching egg, expected salvage value of old birds, mortality rate, feed consumption rate, feed costs and other estimated farming costs to be incurred over the life span of the breeders, as well as the discount rate used for the cash flow.

Commercial layers

In measuring the fair value of commercial layers, management's estimation includes the expected number of table eggs produced by each layer, the expected selling price of the table eggs, expected salvage value of layers, mortality rate, feed consumption rate, feed costs and other estimated farming costs to be incurred over the life span of the layers, as well as the discount rate used for the cash flow.

Broilers

Management's estimation includes the expected selling price of broilers, saleable weight, mortality rate, feed consumption rate, feed costs and other estimated farming costs to be incurred over the life span of broilers, as well as the discounted rate used for the cash flow.

Hatching eggs

Management's estimation includes the expected selling price of day-old-chick or hatching egg, internal hatchability ratio, estimated hatchery cost to be incurred for hatching the eggs into day-old-chick.

The Group recorded a fair value for its biological assets of RM571,763,000 as at 31 December 2024 (2023: RM515,453,000). The key assumptions used in the discounted cash flow model and the sensitivity analysis are disclosed in Note 17 to the financial statements.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

3 CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(ii) Contingent liabilities

The Group identifies and analyses on a regular basis the current litigation, claims and arbitration involving the group, if any, when they arise. When necessary, provisions are made based on the best estimate of the expenditure required to settle the obligations, taking into account information available and different possible outcomes at the reporting date.

Contingent liabilities may develop in a way not initially expected. Therefore, a contingent liability is disclosed when it is not possible to predict the outcome of present obligations that arise from past events.

Management has made an assessment on contingent liabilities, including uncertainty relating to the outcome of its ongoing appeal on the penalty imposed by Malaysia Competition Commission ("MyCC"), which is inherently subject to uncertain future events and is disclosed in Note 41 in the notes to the financial statements.

(iii) Deferred taxes

Deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. This involves significant judgement regarding the future financial performance of the particular entity in which the deferred tax asset has been recognised, the likely timing and level of future taxable profits together with future tax planning strategies to support the basis of recognition of deferred tax assets. Further details of deferred tax asset are disclosed in Note 16 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

4 REVENUE

The Group derives the following types of revenue:

	<u>Group</u>		<u>Company</u>	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
	RM'000	RM'000	RM'000	RM'000
<u>Revenue from contracts with customers:</u>				
- Sales of goods	9,297,996	9,526,438	-	-
<u>Revenue from other sources:</u>				
- Lease income	11,344	12,922	-	-
- Dividend income from subsidiaries	-	-	118,859	120,736
- Others	112	152	-	-
Total revenue	<u>9,309,452</u>	<u>9,539,512</u>	<u>118,859</u>	<u>120,736</u>

Disaggregation of revenue from contracts with customers by product segments:

	<u>Group</u>	
	<u>2024</u>	<u>2023</u>
	RM'000	RM'000
Livestock and other poultry related products	5,398,950	5,155,633
Feedmill	3,899,046	4,370,805
	<u>9,297,996</u>	<u>9,526,438</u>

Included in the revenue from livestock and other poultry related products is revenue from sales of table eggs of RM806,565,000 (2023: RM848,524,000).

5 EMPLOYEE BENEFIT COSTS INCLUDING DIRECTORS' REMUNERATION

(a) Employee benefit costs including Directors' remuneration

	<u>Group</u>		<u>Company</u>	
	<u>2024</u>	<u>2023</u>	<u>2024</u>	<u>2023</u>
	RM'000	RM'000	RM'000	RM'000
Salaries, wages, bonuses and other benefits	814,056	732,743	1,138	848
Defined contribution plans	42,451	42,518	20	-
Defined benefit plans (Note 33)	5,929	6,112	-	-
ESOS expenses	3,582	-	694	-
	<u>866,018</u>	<u>781,373</u>	<u>1,852</u>	<u>848</u>

(b) The breakdown of the Directors' remuneration of the Group and Company are as disclosed in Note 40 to the financial statements.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

6 PROFIT FROM OPERATIONS (CONTINUED)

* The rental expenses disclosed comprise only short term leases and leases of low value assets. See Note 12 for details of rental expenses.

[^] Government subsidy was recognised as 'other income' during the financial year ended 31 December 2024 and 31 December 2023 under "Program Subsidi Ayam dan Telur". The program has been approved by the Government of Malaysia on 9 February 2022. The objective of the programme is to ease the burden of poultry and layer farmers due to the increase in the production costs while the ceiling prices have been set for chicken and eggs. Under the program, the eligible poultry and layer farmers will receive cash when their applications have been approved by the Department of Veterinary Services ("DVS") under Ministry of Agriculture and Food Industries. Subsidy for chicken was discontinued on 1 November 2023, while subsidy for eggs remains unaffected.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

8 TAX EXPENSE (CONTINUED)

The amounts of unutilised tax losses, deductible temporary differences on property, plant and equipment and unutilised reinvestment allowance for which no deferred tax asset has been recognised in the statements of financial position are as follows:

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
Unutilised tax losses		
- expiring by year of assessment 2024*	-	19,626
- expiring by year of assessment 2025*	8,350	22,750
- expiring by year of assessment 2026*	5,353	117,164
- expiring by year of assessment 2027*	3,448	69,974
- expiring by year of assessment 2028**	86,255	27,680
- expiring by year of assessment 2029**	24,613	4,056
- expiring by year of assessment 2030 [^]	596	596
- expiring by year of assessment 2031 [^]	7,040	7,108
- expiring by year of assessment 2032 [^]	2,247	568
- expiring by year of assessment 2033 [^]	219	-
	<u>138,121</u>	<u>269,522</u>
Unabsorbed capital allowances		
- no expiry period	4,640	5,962
Unutilised reinvestment allowance		
- expiring not more than seven years	5,599	9,318
	<u>148,360</u>	<u>284,802</u>

* Under Indonesia and Vietnam tax regulations, the unutilised tax losses can be carried forward for a maximum of 5 years following the years the losses were incurred.

[^] In Malaysia, the time limit to carry forward unutilised tax losses of Malaysian companies is a maximum of 10 consecutive years of assessment.

The Global Minimum Tax

In December 2021, the Organisation for Economic Co-operation and Development ("OECD") issued Pillar Two model rules which are also commonly known as Global Minimum Tax ("GMT"). Various governments around the world have issued, or are in the process of issuing, legislation on this. The Government of Malaysia has gazetted the Finance (No.2) Act 2023 in December 2023 which sets out, amongst others, the legislative provisions of the OECD's Pillar Two model rules and will be effective for financial years beginning on or after 1 January 2025.

The Group is assessing the tax exposure for the jurisdictions in which the legislation has not been enacted or has been enacted but not yet effective for financial year 2024.

The Group applies the exception to recognising and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes, as provided in Amendments to MFRS 112 on International Tax Reform – Pillar Two Model Rules.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

9 EARNINGS PER SHARE ("EPS")

Basic EPS of the Group is calculated by dividing the profit attributable to the owners of the Company by the weighted average numbers of ordinary shares in issue during the financial year.

For the dilutive earnings per share calculation, the average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary shares. The dilutive potential ordinary shares for the Group are the exercise of ESOS Options by eligible Directors and employees of the Group.

The following table reflects the income and share data used in the basic EPS computations:

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
Profit attributable to the owners of the Company	428,930	301,737
Weighted average number of ordinary shares in issue ('000)	3,649,689	3,650,000
Basic and diluted EPS (sen)	11.75	8.27

Diluted EPS

For the diluted earnings per ordinary share calculation, the average number of ordinary shares in issue is adjusted to assume conversion of all dilutive potential ordinary share.

The potential conversion of ESOS options are anti-dilutive as their exercise prices were higher than the average market price ('out of the money') of the Company's ordinary share during the financial year 2024 and 2023. Accordingly, the exercise of ESOS had been ignored in the calculation of dilutive earnings per share and the diluted earnings per ordinary share is the same as the basic earnings per ordinary share.

- (a) As of 31 December 2024, certain property, plant and equipment of the Group with a net carrying value of RM750,801,000 (2023: RM857,101,000) were charged to licensed banks to secure credit facilities granted to the Group as disclosed in Note 32 to the financial statements.
- (b) During the financial year, the Group has recognised an impairment charge of RM18,900,000 (2023: RM16,394,000) in its poultry and other related operations. The assessment was triggered due to the Group's net asset value being above the Group's market capitalisation. In performing the impairment assessment of the carrying amount of property, plant and equipment, the recoverable amount is determined using value-in-use ("VIU") calculation. These calculations use pre-tax cash flow projections covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated terminal growth rates.

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
Fair values	96,122	92,656

The property rental income earned by the Group from investment properties, certain of which are leased out under operating leases, amounted to RM1,374,000 (2023: RM1,130,000). Direct operating expenses arising from investment properties that are revenue-generating of the Group amounted to RM99,000 (2023: RM143,000).

The Group lease out some of its investment properties. The Group classified these leases as operating lease, because they do not transfer substantially all of the risks and rewards incidental to the ownership of the assets. The following table set out the maturity analysis of lease payments, showing the undiscounted lease payments to be received after the reporting date.

*Remeasurement refers to right-of-use assets that had exercised the option to extend the lease term during the financial year.

Extension options are included in a number of leases across the group to maximise operational flexibility.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

12 RIGHT-OF-USE ASSETS (CONTINUED)

Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. All lease agreements do not impose any covenants other than the specific use of certain leasehold land or land use rights.

	<u>Note</u>	<u>2024</u> RM'000	<u>2023</u> RM'000
Interest expense (included in finance costs)	7	9,018	8,190
Expense relating to short-term leases (included in rental expenses)	6	11,214	9,581
Expense relating to leases of low value assets that are not shown above as short-term leases (included in rental expenses)	6	455	403
The total cash outflow for leases		<u>48,099</u>	<u>47,963</u>

Additions of right-of-use assets

Right-of-use assets were acquired by the following means:

	<u>2024</u> RM'000	<u>2023</u> RM'000
Cash payments	13,567	557
Future lease payment included in lease liabilities	41,008	34,597
Provision for asset retirement obligation	275	156
Addition of right-of-use assets	<u>54,850</u>	<u>35,310</u>

During the financial year, the Group has recognised an impairment charge of RM99,000 (2023: RM6,391,000) in its other poultry related operations. The assessment was triggered due to the Group's net asset value being above the Group's market capitalisation. In performing the impairment assessment of the carrying amount of property, plant and equipment, the recoverable amount is determined using value-in-use ("VIU") calculation. These calculations use pre-tax cash flow projections covering a five-year period. Cash flows beyond the five-year period are extrapolated using the estimated terminal growth rates.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

13 INTANGIBLE ASSETS (CONTINUED)

(i) Business customer relationship

Business customer relationship acquired in business combination are amortised over 5 years.

(ii) Goodwill on consolidation

Goodwill acquired in a business combination is allocated at acquisition to the cash generating units that are expected to benefit from the business combination. The carrying amount of goodwill totalling RM91.2 million (2023: RM102.5 million) had been allocated to the following cash generating units ('CGUs') for the purpose of impairment testing.

	2024	Group 2023
	RM'000	RM'000
<u>Malaysia</u>		
Manufacturing of animal feeds	4,021	4,021
Trading of animal health products	3,115	3,115
Poultry farming and breeding	33,208	33,208
<u>Singapore</u>		
Processing and marketing of consumer products	50,891	62,168
	<u>91,235</u>	<u>102,512</u>

Impairment assessment for intangible assets in relation to the goodwill on consolidation

The impairment test was performed by comparing the cash-generating unit's carrying amount with its recoverable amount. The recoverable amount is determined using value-in-use calculations.

The recoverable amounts of the respective CGUs are determined based on value-in-use calculations. These calculations use pre-tax cash flow projections covering a five-year period, based on the three-year financial budget which have been approved by the Directors and two-year forecast of the specific CGUs that the goodwill is allocated to. Cash flows beyond the five-year period are extrapolated using the estimated terminal growth rates.

During the financial year, an impairment loss of RM8,404,000 was recognised in respect of goodwill CGU of an indirect subsidiary, Leong Hup Food Pte.Ltd.

In the previous financial year, an impairment loss of RM102,000 was recognised in respect of trading of animal health products CGU of an indirect subsidiary, Professional Vet Enterprise Sdn. Bhd.

Sensitivity

As at 31 December 2024 and 31 December 2023, the recoverable amount of CGUs above, except for Leong Hup Food Pte. Ltd. and Professional Vet Enterprise Sdn. Bhd. respectively, are estimated to exceed the carrying amounts and is not sensitive to any reasonable change in the key assumptions.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

13 INTANGIBLE ASSETS (CONTINUED)

The key assumptions used in the value-in-use calculations are as follows:

Poultry farming and breeding

- The revenue growth rate and EBITDA margin is supported by management's approved budget and forecast, which is in line with past performance records, future market outlook and management's expectation of market developments.
- Pre-tax discount rate of 9.7% (2023: 9.7%) was applied, benchmarked against comparable companies at the date of assessment.
- A terminal growth rate 2.5% (2023: 2.2%) was applied.

Processing and marketing of consumer products

- The revenue growth rate and EBITDA margin is supported by management's forecasted projects, which is in line with past performance records, future market outlook and management's expectation of market developments.
- Pre-tax discount rate of 12.0% (2023: 14.5%) was applied, benchmarked against comparable companies at the date of assessment.
- A terminal growth rate 3.0% (2023: 3.0%) was applied.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

17 BIOLOGICAL ASSETS (CONTINUED)

The Group has classified its biological assets measured at fair value within Level 3 of the fair value hierarchy. (See Note 45) The following table shows the valuation technique used in the determination of fair values within Level 3, as well as the significant unobservable inputs used in the valuation mode.

Description of valuation technique and input used	Significant unobservable inputs	Inter-relationship between significant unobservable inputs and fair value measurements
Breeders		
Discounted cash flows: The valuation method considers the expected number of DOC produced, expected selling price of DOC or hatching egg over the life of the breeders, taking into account of the estimated growing and farming costs and the mortality rate.	- Estimated selling price of DOC or hatching egg based on management's estimate by reference to historical selling price adjusted for abnormal market movements. - Management's estimate of feed and other variable costs expected to be incurred over the life span.	The higher the estimated selling price, the higher the fair value The higher the costs, the lower the fair value
Commercial Layers		
Discounted cash flows: The valuation method considers the expected number of table egg produced, expected selling price of table eggs, taking into account of the estimated growing and farming costs and the mortality rate.	- Estimated selling price of table eggs based on management's estimate by reference to historical selling price adjusted for abnormal market movements. - Management's estimate of feed and other variable costs expected to be incurred over the life span.	The higher the estimated selling price, the higher the fair value The higher the costs, the lower the fair value
Broilers		
Discounted cash flows: The valuation method considers the estimated selling price and weight of the broilers taking into account of the estimated growing and farming costs and the mortality rate.	- Estimated recent selling prices of broiler. - Management's estimate of feed and other variable costs expected to be incurred over the life span.	The higher the estimated selling price, the higher the fair value The higher the costs, the lower the fair value
Hatching eggs		
Discounted cash flows: The valuation method considers selling price of DOC or hatching egg, taking into account of expected hatchery costs and the hatching eggs' hatchability.	- Expected recent selling prices of DOC and hatching egg. - Management's estimate of hatchery and other variable costs expected to be incurred for hatching the eggs into day-old-chick.	The higher the estimated selling price, the higher the fair value The higher the costs, the lower the fair value

LEONG HUP INTERNATIONAL BERHAD

At 31 December 2024	-	-	-

In the previous financial year, the Group's indirect subsidiary, Hup Heng Poultry Industries Pte. Ltd. had decided to list the property located at 28, 30 Senoko Crescent, Singapore for sale. The management had conducted a valuation on the property and actively sought for buyer through various disposal channels. As a result, the property, plant and equipment associated with the intention had met the criteria of MFRS 5 and was presented as non-current assets held for sale in the end of the financial year.

On 20 December 2024, the subsidiary's Board of Directors approved the withdrawal of the proposed sale of its leasehold property located at 28, 30 Senoko Crescent, Singapore. Subsequently, the leasehold property was reclassified from assets held for sale and presented under property, plant and equipment as at 31 December 2024.

28 MERGER RESERVE

The Group applies predecessor accounting to account for business combinations under common control. Under predecessor accounting, assets and liabilities acquired are not restated to their respective fair values. They are recognised at the carrying amounts from the financial statements of the ultimate holding company of the Group and adjusted to conform with the accounting policies adopted by the Group. The difference between any consideration given and the aggregate carrying amounts of the assets and liabilities of the acquired entity is recognised as merger reserve.

Merger reserve mainly arose from acquired entities by the Group and the Company during the Group restructuring in year 2014 from Leong Hup Holdings Sdn. Bhd., a fellow subsidiary of the Group.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

29 RESERVES (CONTINUED)

(ii) Retained earnings

The entire retained earnings of the Company as at 31 December 2024 is available for distribution as dividend under the single tier system without incurring additional tax liabilities.

(iii) ESOS reserve

ESOS reserve represent cumulative value of employee services received for the issue of share options. When the option is exercised, the amount from the ESOS reserve is transferred to retained earnings. When the share options expire, the amount from the share-based payment reserve is transferred to retained earnings. See Note 30 for the details of the ESOS.

30 EMPLOYEE SHARE OPTION SCHEME

In conjunction with the listing of the Company on Bursa Malaysia Securities Berhad, ("Listing"), the Company has established the Employee Share Option Scheme ("Previous ESOS"), with effect from 11 April 2019 ("Effective Date"), which involves the granting of ESOS Options ("the Options") to the eligible Directors and employees of the Group ("Grantees") as set out in the By-Laws governing the ESOS. The Previous ESOS expired on 10 April 2024, after five (5) years from the Effective Date.

On 31 May 2024, the shareholders had approved a new ESOS ("ESOS"). The Company had granted new ESOS options under this scheme to the Grantees. The duration of ESOS is for five(5) years effective from 18 July 2024 until 17 July 2029.

The Options are for one option for one new share. The issuance of the Options shall not exceed in aggregate 5.00% of the total number issued shares of the Company (excluding treasury shares, if any) at any one time during the duration of ESOS.

The Options are to be settled only by the issuance and allocation of new ordinary shares of the Company. There are no cash settlement alternatives.

The vested ESOS Options is exercisable by way of ESOS Trust Funding ("ETF") mechanism. In the implementation of ESOS, the Company has established a trust of which to be administered by the trustee. To enable the trustee to subscribe for new shares for the purposes of the ESOS implementation, the trustee will be entitled from time to time to accept funding from the Company. Under the ETF mechanism, as the Grantees elect to exercise the Options, the trustee will immediately utilise the fund in the trust account to subscribe new shares issued by the Company and place into a Central Depository System ("CDS") account of the trustee or its authorised nominee. The trustee shall within five market days from the new shares being credited to the CDS account, effect the sale of the said shares at the market price of equal or higher than the exercise price. The net gains from the sale of the Company shares after deducting the exercise cost i.e. Exercise Price x Number of the Company shares and the related transaction costs, will be released to the Grantees. In the event of unsuccessful match of sale of the said shares, the said shares will be retained as an advance to the Grantees by the Company.

Fair value of share option and assumptions

The fair value of share options granted was determined using the binomial option pricing model, taking into account the terms and conditions upon which the share options were granted. The fair value of share options measured, closing share price at grant date and the assumptions were as follows:

Award date	16 May 2019 Previous Grant
------------	-------------------------------

Fair value per Option at grant date	RM0.352
Share price at grant date	RM1.10
Exercise price	RM1.10
Options life (expected weighted average life)	4.9 years
Expected dividends yield	1.39%
Risk-free interest rate (based on Malaysian Government Securities)	3.60%
Expected volatility	37.71%

Award date	19 July 2024 New Grant
------------	---------------------------

Fair value per Option at grant date	RM0.1881
Share price at grant date	RM0.67
Exercise price	RM0.605
Options life (expected weighted average life)	5 years
Expected dividends yield	3.3086%
Risk-free interest rate (based on Malaysian Government Securities)	3.60%
Expected volatility	33.51%

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

32 BANK BORROWINGS (CONTINUED)

The weighted average effective interest rates of term loans by currency profile as at end of the financial year are as follows:

	<u>2024</u> %	<u>Group</u> <u>2023</u> %
Ringgit Malaysia	5.2	5.4
Singapore Dollar	5.2	5.3
Indonesia Rupiah	7.3	7.5
Vietnamese Dong	6.9	6.8
Philippines Peso	7.8	8.3

(c) Hire purchase liabilities

Future instalment payments under hire purchase liabilities are as follows:

	<u>2024</u> RM'000	<u>Group</u> <u>2023</u> RM'000
Instalment payments:		
- Not later than 1 year	3,883	8,576
- Later than 1 year but not later than 5 years	2,832	7,640
	6,715	16,216
Less: Future finance charges	(288)	(786)
Present value of hire purchase liabilities	6,427	15,430
Of which are:		
- Not later than 1 year	3,693	8,090
- Later than 1 year and not later than 5 years	2,734	7,340
	6,427	15,430

The carrying amounts and fair values of the hire purchase liabilities of the Group are as follows:

	<u>2024</u> RM'000	<u>Group</u> <u>2023</u> RM'000
Carrying amount	6,427	15,430
Fair value	6,344	15,417

The fair value of hire purchase liabilities is estimated based on discounted cash flows using prevailing market rates for borrowings with similar risks profile and within level 2 of the fair value hierarchy.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

32 **BANK BORROWINGS (CONTINUED)**

(d) **Sukuk Mudharabah**

On 23 November 2020, Leong Hup Capital Sdn. Bhd. ("LHC") lodged the proposed establishment of an unrated Islamic Medium Term Notes Programme of up to RM1.0 billion in nominal value under the Shariah principle of Mudharabah ("Sukuk Mudharabah Programme") with the Securities Commission Malaysia ("SC") under the SC's Guidelines on Unlisted Capital Market Products under the Lodge and Launch Framework issued by the SC on 9 March 2015 and revised on 12 November 2020 (as amended from time to time).

The Sukuk Mudharabah Programme is established by LHC as a funding vehicle for Leong Hup (Malaysia) Sdn. Bhd. ("LHM") and its subsidiaries (collectively, "LHM Group") and is guaranteed by LHM pursuant to an irrevocable and unconditional corporate guarantee under the principle of Kafalah and an irrevocable and unconditional letter of undertaking both in favour of the sukuk trustee.

The Sukuk Mudharabah Programme is unrated and shall have a tenure of 10 years from the date of first issuance of the Islamic medium term notes ("Sukuk Mudharabah") under the Sukuk Mudharabah Programme. The Sukuk Mudharabah to be issued under the Sukuk Mudharabah Programme from time to time shall have a tenure of at least 1 year and up to 10 years from the date of issuance as LHC may select provided that the Sukuk Mudharabah shall mature on or prior to the expiry of the Sukuk Mudharabah Programme.

On 22 December 2020, LHC completed an issuance of RM100 million in nominal value ("first issuance") with a tenure of 5 years from the date of issuance. The first issuance is due for repayment in December 2025.

On 15 June 2021, LHC completed the second issuance of RM100 million (RM34 million, RM33 million and RM33 million cumulatively) in nominal value ("second tranche", "third tranche" and "fourth tranche" respectively) with a tenure of 3 to 5 years from the date of issuance. The second issuance is due for repayment in June 2024, June 2025 and June 2026 respectively.

On 10 January 2022, LHC completed the third issuance of a total of RM100 million (RM30 million, RM30 million and RM40 million cumulatively) in nominal value ("fifth tranche", "sixth tranche" and "seventh tranche" respectively) with a tenure of 3 to 5 years from the date of issuance. The third issuance is due for repayment in January 2025, January 2026 and January 2027 respectively.

The proceeds from the Sukuk Mudharabah Programme shall be utilised by LHC for the following Shariah-compliant purposes:

- i. provide Shariah-compliant intercompany advance(s) to the companies within the LHM Group;
- ii. finance the redemption of any Sukuk Mudharabah then maturing; and
- iii. defray fees and expenses incurred in relation to the Sukuk Mudharabah Programme.

The proceeds from the Sukuk Mudharabah Programme shall be utilised by the relevant company within the LHM Group for the following Shariah-compliant purposes:

- i. refinance its existing financing/ borrowings;
- ii. finance its capital expenditure requirements;
- iii. finance its working capital requirements;
- iv. finance its investment and/or acquisition of company(ies) and/or business(es); and
- v. finance its general corporate purposes.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

32 BANK BORROWINGS (CONTINUED)

The currency profile of borrowings is as follows:

	Group	
	<u>2024</u>	<u>2023</u>
	RM'000	RM'000
Ringgit Malaysia	713,778	798,335
Singapore Dollar	226,088	266,052
US Dollar	16,028	48,682
Indonesia Rupiah	491,645	704,573
Vietnamese Dong	408,008	501,679
Philippines Peso	139,158	138,755
	<u>1,994,705</u>	<u>2,458,076</u>

Secured bank borrowings are secured by legal charges over property, plant and equipment (Note 10), biological assets (Note 17), inventories (Note 18), trade receivables (Note 19) and other receivables (Note 20) of the Group.

Borrowings of the Group are subject to certain covenants. These covenants require that certain ratios (Debt to Equity ratio, Current ratio, Interest coverage ratio, EBITDA to interest ratio and Debt servicing coverage ratio) to be met. The Group is in compliance with these covenants at each reporting date.

The weighted average effective interest rates as at end of the financial year are as follows:

	Group	
	<u>2024</u>	<u>2023</u>
	%	%
Bankers' acceptances	3.9	3.8
Bank overdrafts	8.0	8.0
Term loans	6.2	6.4
Revolving credits	5.8	6.2
Trust receipts	4.5	3.3
Hire purchase liabilities	3.4	3.0
Sukuk Mudharabah	4.8	4.8

LEONG HUP INTERNATIONAL BERHAD

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

33 POST-EMPLOYMENT BENEFITS OBLIGATION

The Group operates various post-employment schemes, including both defined contributions plan (Note 5) and defined benefit plan. The Group's post-employment benefits obligation primarily arise from PT Malindo Feedmill Tbk and its subsidiaries. The Group provides defined post-employment benefits to their employees in accordance with Indonesian Labour Law No. 13/2003. No funding has been made to this defined benefit plan.

The method used in the actuarial valuation is the "Projected Unit Credit" method with the following assumptions:

	<u>2024</u>	<u>Group 2023</u>
Retirement age	56 years	56 years
Discount rate (per annum)	7.0%	7.0%
Annual salary increase	8.0%	8.0%

Assumptions regarding future mortality are set based on actuarial advice in accordance with published statistics and experience in Indonesia.

Movements in the present value of the post-employment benefit obligation are as follows:

	<u>2024</u>	<u>Group 2023</u>
	RM'000	RM'000
At 1 January	38,971	33,282
Charge of current service cost	3,513	3,845
Interest cost	2,416	2,267
Benefit paid	(1,592)	(1,566)
Translation differences	(2,728)	1,844
Remeasurement of post-employment benefit obligation charged to other comprehensive income	(672)	(701)
At 31 December	<u>39,908</u>	<u>38,971</u>

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

33 POST-EMPLOYMENT BENEFIT OBLIGATION (CONTINUED)

The amounts recognised in consolidated statements of comprehensive income in respect of the defined benefit plan are as follows:

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
Charge of current service cost	3,513	3,845
Interest cost	2,416	2,267
	<u>5,929</u>	<u>6,112</u>
Expenses recognised in profit or loss (Note 5(a))	<u>5,929</u>	<u>6,112</u>
 Remeasurements:		
Actuarial gain arising from experience adjustment	(672)	(701)
	<u>(672)</u>	<u>(701)</u>
Remeasurements gain of post-employment benefit obligation recognised in other comprehensive income	<u>(672)</u>	<u>(701)</u>

The sensitivity of the overall pension liability to changes in the weighted principal assumptions is as follows:

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
<u>Effect on defined benefit obligation</u>		
- 1% on discount rate	523	520
+ 1% on discount rate	(446)	(443)

The above sensitivity analyses are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognised within the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous year.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

41 CONTINGENT LIABILITIES

On 22 December 2023, Leong Hup Feedmill Malaysia Sdn. Bhd. ("LFM"), an indirect wholly-owned subsidiary of the Company had received a Notice of Finding of An Infringement under Section 40 of the Competition Act 2010 dated 11 December 2023, together with the Decision of Infringement of Section 4(1) read with Sections 4(2)(a) and 4(3) of the Competition Act 2010 (the "Decision") dated 11 December 2023 from Malaysia Competition Commission ("MyCC").

In the Decision, MyCC maintains its proposed decision of 5 August 2022, that LFM had engaged in price-fixing infringement under Section 40 of the Competition Act 2010 with an imposition of financial penalty of RM157,470,027 on LFM.

The Company and LFM strongly believe that MyCC's finding of infringement is without merit and had on 9 January 2024 appealed the Decision via the filing of the Notice of Appeal and an application for a stay of the execution of the financial penalty with the Competition Appeal Tribunal ("CAT") after consultation with its external legal counsels. On 22 April 2024, MyCC had fixed 12 June 2024 for hearing of the stay application.

The CAT had on 6 December 2024 dismissed LFM's application to stay the Decision pending the disposal of LFM's appeal to the CAT against the Decision ("CAT Decision on Stay"). LFM then filed an application for leave at the High Court to institute judicial review proceeding against the CAT Decision on Stay and sought an ad interim stay order in relation to MyCC's Decision requiring payment of the financial penalty.

On 2 January 2025, the High Court of Kuala Lumpur had granted LFM leave to institute judicial review proceeding against the CAT Decision on Stay. LFM's interim stay application sought to stay all actions, proceedings and enforcement of the MyCC's Decision pending disposal of LFM's judicial review application ("LFM's Interim Stay Application"). On 8 April 2025, the High Court of Kuala Lumpur ordered a stay on all actions, proceedings, execution, and enforcement of MyCC's Decision, pending disposal of LFM's judicial review application, with costs in cause. The High Court has fixed the hearing of LFM's judicial review application on 23 July 2025.

Meanwhile, the hearing of LFM's appeal against MyCC's decision at the CAT was conducted on 18 February 2025 and the counsel of LFM had made its oral submissions in reply on 18 April 2025.

42 CAPITAL COMMITMENTS

Capital expenditure not provided for in the financial statements are as follows:

	Group	
	2024	2023
	RM'000	RM'000
Acquisition of property, plant and equipment:		
- approved by Directors and contracted for	33,285	36,322

The capital commitments as at 31 December 2024 and 31 December 2023 include the estimated costs to be incurred in securing the certificate of completion and compliance on certain farms of the Group.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

44 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. Financial risk management policy is established to ensure that adequate resources are available for the development of the Group's and of the Company's business whilst managing its financial risks. The Group and the Company operate within clearly defined policies and procedures that are approved by the Board of Directors to ensure the effectiveness of the risk management process.

The main areas of financial risks faced by the Group and the Company and the policy in respect of the major areas of treasury activity are set out as follows:

(a) Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations. It is the Group's policy to enter into financial instrument with a diversity of creditworthy counterparties. The Group does not expect to incur material credit losses of its financial assets or other financial instruments.

As of the end of the reporting date, the maximum exposure to credit risk arising from financial assets is limited to the carrying amounts in the statements of financial position. The Group's major classes of financial assets are trade and other receivables and cash and bank balances.

Following are the areas where the Group is exposed to credit risk:

(i) Trade receivables using simplified approach

Concentration of credit risk exists when changes in economic, industry and geographical factors similarly affect the group of counterparties whose aggregate credit exposure is significant in relation to the Group's total credit exposure. The Group's portfolio of financial instrument is broadly diversified by geographical lines, and transactions are entered into with diverse creditworthy counterparties, thereby mitigate any significant concentration of credit risk.

It is the Group's policy that all customers who wish to trade on credit terms are subject to credit verification procedures. The Group does not offer credit terms without the approval of the appropriate authorised personnel. With a credit policy in place to ensure the credit risk is monitored on an ongoing basis, management has taken reasonable steps to ensure that receivables are stated at their realisable values. A significant portion of the receivables are regular customers that have been transacting with the Group.

Historically, the Group's loss arising from credit risk is low. To measure the expected credit loss, receivables have been grouped based on days past due. The expected loss rates are based on the historical payment profiles of debtors and the corresponding credit losses experienced within this period. The historical loss rates are then adjusted to reflect forward-looking information on macroeconomic factors affecting the ability of customers to settle receivables. No significant changes to estimation techniques or assumptions were made during the reporting period.

LEONG HUP INTERNATIONAL BERHAD
(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

44 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Credit risk (continued)

(i) Trade receivables using simplified approach (continued)

A default on a financial asset is when the counterparty fails to make contractual payments within 180 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery, such as a debtor failing to engage in a repayment plan with the Group. The Group categorises a receivable for write off when a debtor fails to make contractual payments greater than 365 days past due. Where trade receivables have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in profit or loss.

The Group applies the simplified approach to providing for expected credit losses prescribed by MFRS 9, which permits the use of the lifetime expected loss provision for all trade receivables.

The Group's current credit risk grading framework comprises the following categories:

<u>Category</u>	<u>Description</u>	<u>Basis for recognising expected credit losses ("ECL")</u>
Performing	The customers that have no history of default.	Lifetime ECL
In-default	- Customers that have history of default. - Amount that is more than 180 days past due.	Lifetime ECL
Write-off	Amount that is more than 365 days and there is evidence indicating that the Group has no realistic prospect of recovery.	Asset is written off

The movement of allowance for impairment is disclosed in Note 19.

The Group's ECL rate at the end of the reporting period is 0.49% (2023: 0.46%)

No significant changes to estimation techniques or assumptions were made during the reporting period.

LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

44 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

(a) Credit risk (continued)

(ii) Other debt investments financial assets at amortised costs

Other debt instruments financial assets at amortised cost include other receivables, amounts due from subsidiaries, and amounts due from an associate.

The loss allowance for other financial assets at amortised cost as at 31 December 2024 and 31 December 2023 reconciles to the opening loss allowance disclosed in Note 20.

All of these financial assets are considered to have low credit risk, and thus the impairment provision recognised during the period was limited to 12 months expected losses. These financial assets instruments are considered to be low credit risk when they have a low risk of default and the counterparties have strong capacity to meet its contractual cash flow obligations in the near term.

(iii) Financial guarantee contracts

At the date of reporting, there is no financial guarantee contract granted to external parties.

(b) Liquidity risk

Liquidity risk is the risk that the Group or the Company will encounter difficulty in meeting financial obligations due to shortage of funds. The Group's and the Company's exposure to liquidity risk arises primarily from mismatches of the maturities of financial assets and liabilities.

The Group and the Company actively manage their debt maturity profile, operating cash flows and availability of funding so as to ensure that all refinancing, repayment and funding needs are met. The Group and the Company adopt prudent liquidity risk management by maintaining sufficient cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they fall due.

The Company obtains financial support from its direct subsidiary, Leong Hup (Malaysia) Sdn. Bhd. to the extent that the Company will be able to meet its liabilities as and when they fall due.

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign currency risk on sales and purchases, borrowings and bank balances that are denominated in a currency other than the respective functional currencies of the entities within the Group. The currencies which give rise to this risk are primarily Singapore Dollar (SGD) and United States Dollar (USD).

The Group's exposure to foreign currency risk arising on financial instruments denominated in a currency different from the functional currency of the entity holding the instruments is as shown in the table below:

Others		
- Strengthened 5%	42	(5)
- Weakened 5%	(42)	5

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

The Group's fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. The Group's variable rate borrowings are exposed to a risk of change in cash flows due to changes in interest rates.

The Group's interest rate management objective is to manage the interest expenses consistent with maintaining an acceptable level of exposure to interest rate fluctuation. The risk is managed by the Group by maintaining an appropriate mix between fixed and floating rate borrowings.

45 FAIR VALUE OF FINANCIAL INSTRUMENTS

(a) Determination of fair value

Financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value

The following are classes of financial instruments that are not carried at fair value and whose carrying amounts are reasonable approximation of fair value:

<u>Asset/liability</u>	<u>Note</u>
Trade receivables	19
Other receivables, deposits and prepaid expenses	20
Amounts due from subsidiaries	21
Amount due from an associate	22
Cash and bank balances	25
Lease liabilities	31
Bank borrowings	32
Trade payables	36
Other payables and accrued expenses	37
Amounts due to subsidiaries	38

The carrying amount of financial assets and liabilities classified within current assets and current liabilities respectively approximate their fair values due to the relatively short-term nature of this financial instruments.

Certain bank borrowings that are floating rate instruments are reasonable approximation of fair values as they are re-priced to market interest rate on or near the reporting date.

The carrying amount of financial liabilities measured at amortised cost approximates their respective fair values.

The fair values of long-term financial assets and liabilities are calculated based on the present value of future principal and interest cash flows, discounted at market rate of interest or incremental lending rate for similar types of lending, borrowing or leasing arrangement at the reporting date.

(b) Fair value measurement

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- (i) Level 1 – Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- (ii) Level 2 – Valuation techniques for the lowest level input that is significant to the fair value measurement is directly or indirectly observable.
- (iii) Level 3 – Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

45 **FAIR VALUE OF FINANCIAL INSTRUMENTS (CONTINUED)**

(b) Fair value measurement (continued)

The table below analyses assets and liabilities not carried at fair value for which fair value is disclosed, together with their values and carrying amounts shown in the statement of financial position.

	Fair value of assets not carried at fair value Level 3 RM'000	Carrying amount RM'000
<u>Group</u>		
<u>2024</u>		
Investment properties (Note 11)	96,122	31,148
<u>2023</u>		
<u>Assets:</u>		
Investment properties (Note 11)	92,656	40,245

Fair value of certain investment properties is based on comparison method carried out by independent firms of professional valuers in determining its fair value. These were based on recent sale transactions of comparable properties with adjustments made to reflect location, purpose, visibility, size, tenure and age.

When there is no valuation performed, the fair values of the Group's investment properties are arrived by reference to market indication of transactions prices for similar properties determined by Group's Directors.

There was no transfer between all 3 levels of the fair value hierarchy during the financial year.

(c) Other non-financial assets and liabilities measured at fair value

Other than biological assets (Note 17), the Group does not have assets and liabilities measured at fair value at the reporting date.

46 CAPITAL MANAGEMENT

The primary objective of the Group's and the Company's capital management is to ensure that it maintains a strong credit rating and financially prudent capital ratios in order to support its current business as well as future expansion so as to maximise shareholder value.

The Group and the Company manage their capital structure and make adjustment to it, in light of changes in economic condition including the interest rate movements. To maintain and adjust the capital structure, the Group and the Company may adjust dividend payment to shareholders, return capital to shareholders or issue new shares.

The Group's debt-to-equity ratio as of the reporting period under review is as follows:

	<u>2024</u>	<u>Group</u> <u>2023</u>
	RM'000	RM'000
Total borrowings (Note 32)	1,994,705	2,458,076
Cash and bank balances (excluding fixed deposit pledged as collateral)	(757,041)	(677,837)
Net debts	<u>1,237,664</u>	<u>1,780,239</u>
Total equity	<u>3,327,436</u>	<u>2,955,128</u>
Debt-to-equity ratio (times)^	<u>0.37</u>	<u>0.60</u>

^ Debt-to-equity ratio is calculated as net debts divided by total equity.

There were no changes in the Group's approach to capital management during the financial year. Other than the covenants on borrowings as disclosed in Note 32, the Group is not subject to any other externally imposed capital requirements.

47 OPERATING SEGMENTS

Operating segments are prepared in a manner consistent with the internal reporting provided to the Management Team as its chief operating decision maker in order to allocate resources to segments and to assess their performance on a quarterly basis. For management purposes, the Group is organised into business units based on their products and services provided.

The Group is organised into two main operating segments as follows:

- Livestock and poultry related products – production and distribution of breeder and broiler day-old-chick, broiler chickens, eggs, animal health products, consumer food products and sales of food and beverage.
- Feedmill – Manufacturing and trading of animal feeds.

- (a) The Management Team assesses the performance of the operating segments based on their earnings before interest, tax, depreciation and amortisation ("EBITDA"). The accounting policies of the operating segments are the same as the Group's accounting policies.

Borrowings and investment-related activities are managed on a group basis by the central treasury function and are not allocated to operating segments.

- (b) Each operating segment assets is measured based on all assets of the segment.
- (c) Each operating segment liabilities is measured based on all liabilities of the segment.
- (d) Assets, liabilities and expenses which are common and cannot be meaningfully allocated to the operating segments are presented under unallocated items. Unallocated items comprise mainly corporate assets (primarily the Company's headquarters) and head office expenses. These includes investment properties, deferred tax assets/liabilities, tax recoverable/payable and borrowings.

Transactions between operating segments are carried out on agreed terms between both parties. The effects of such inter-segment transactions and balances arising thereof are eliminated.

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

48 EFFECT OF INTERBANK OFFERED RATE REFORM

Following the Global Financial Crisis, the reform and replacement of benchmark interest rates such as GBP LIBOR, USD LIBOR and other interbank offered rates has become a priority for global regulators. Globally, the new alternative reference rates ("ARR") are being introduced to improve the integrity of financial benchmark rates as part of a transition to transaction-based rates, in line with the LIBOR reforms. The Group has a number of borrowings which are referenced to IBOR.

Malaysia

On 24 September 2021, Bank Negara Malaysia ("BNM") announced the launch of the Malaysia Overnight Rate ("MYOR") as the new alternative reference rate for Malaysia. The MYOR will run in parallel to the existing Kuala Lumpur Interbank Offered Rate ("KLIBOR"). There remain key differences between KLIBOR and MYOR. KLIBOR is a 'term rate', which means that it is published for a borrowing period (such as 3- or 6-month tenor) and is 'forward looking', because it is published at the beginning of the borrowing period. MYOR is currently a "backward-looking" rate, based on unsecured overnight Malaysian Ringgit interbank transactions in the Malaysian financial market, and it is published on the next business day (i.e. at the end of the overnight borrowing period). Furthermore, KLIBOR includes a credit spread over the risk-free rate, which MYOR currently does not. To transition existing contracts and agreements that reference KLIBOR to MYOR, adjustments for term and credit differences might need to be applied to MYOR, to enable the two benchmark rates to be economically equivalent on transition. On 25 March 2022, a new Islamic benchmark rate was announced, the Malaysia Islamic Overnight Rate ("MYOR-i") to replace the Kuala Lumpur Islamic Reference Rate.

The publication of the 2- and 12-month KLIBOR tenors was discontinued on 1 January 2023. The cessation of the publication of the remaining 1-month, 3-month and 6-month KLIBOR tenors had not been determined. Management will continue to monitor this and take the necessary action to address related risk and uncertainties going forward.

Vietnam

The Group has a borrowing which referenced the Vietnam Interbank Offered Rate ("VNIBOR") which extends beyond 2023.

As at 31 December 2024, the alternative benchmark for VNIBOR is not yet been determined. Management will continue to monitor this and take the necessary action to address related risk and uncertainties going forward.

LEONG HUP INTERNATIONAL BERHAD

(Incorporated in Malaysia)

NOTES TO THE FINANCIAL STATEMENTS - 31 DECEMBER 2024 (CONTINUED)

48 EFFECT OF INTERBANK OFFERED RATE REFORM (CONTINUED)

Indonesia

The Group also has a number of borrowings which referenced the Jakarta Interbank Offered Rate ("JIBOR") which extends beyond 2022.

As at 31 December 2024, the alternative benchmark for JIBOR is not yet been determined. Management will continue to monitor this and take the necessary action to address related risk and uncertainties going forward.

Singapore

In the previous financial year, the Group also has a number of borrowings which referenced the Singapore Interbank Offered Rate ("SIBOR") which extends beyond 2022.

During the financial year, the Group transitioned its variable rate SGD borrowings which references to SIBOR to the Singapore Overnight Rate Average rate .

As at 31 December 2024, other than Singapore there is no change to the Group's IBOR-linked contracts. The Group will closely monitor the regulators' announcement on the alternative benchmark rate or discontinuation of publication of the relevant benchmark interest rates for the relevant tenors; and engage the counterparties to discuss necessary changes to the related contracts. The carrying amounts of these borrowings and amounts which reference to IBOR and have not transitioned to the respective new alternative reference rates ("ARR") are disclosed below.

	Carrying amount		Amounts which have yet to transition to an alternative benchmark interest
